**ROOM 1**

8:30
- OCT Angiography: recent data
- 10 key indications and methods of cataract surgery
- Glaucome surgery in 2017
- Work and collaborative consultation

8:50
- Understand and use CCM for phakia and tricks
- The second treatment after retraction laser
- Pigmented lesions to worry

9:10
- Diabetes and exfoliation, revision, alternative?
- Mistakes to avoid when dealing with conjunctival tumours
- Complications in injections, volumes, teams

9:30
- Fickle, implants KSL by KSL
- Occular surface allergy: approach or ignore?/
- Aesthetics 3

9:50
- Lasers and glaucoma: questions and answers
- Optical neuropsychies and questions
- Aesthetics 4

**ROOM 2**

8:30
- Retina detachments therapeutic content
- Defibrillation employee, unstable patients.
- Solutions to lower financial returns

8:50
- From surgical hypoxia to glaucoma
- Endo in trabeculectomy and entropion
- Product analysis: boralostim therapy

9:10
- What you need to know about pathologies retinopatias
- Vascular ophthalmology: therapeutic implications of neovascularisations
- The ABCs of orbit neurological pathologies

9:30
- How to better treat glaucoma in 2017
- Macular pitting and epiretina: clinical cases in vitrectomy
- In English: Cataracts

9:50
- Growth and development of office- based contact lens consulting
- Corneal topography
- Product analysis: OCT

**ROOM 3**

8:30
- Refractive surgery: the second treatment after retraction laser
- Pitfalls and mistakes in care strategies for glaucoma
- Visual aid surgery

8:50
- Multiple choice questions: do you choose and place them well and in time
- irrigate and to know in macular surgery
- Multiple choice questions: how to wait and in time

9:10
- Refractoriness and refractive surgery
- Management of online consultations
- Complications of refractive surgery

9:30
- Video session: from the universe to the retina: illustrated point of view
- Video session: from the universe to the retina: illustrated point of view
- Video session: from the universe to the retina: illustrated point of view

9:50
- New in CCM: intracorneal rings, learn to choose and place them
- New paradigms in surface pathology
- Neuro ophthalmology? 6

**ROOM 4**

8:30
- Retinal detachment
- Visual and surgical
- Video session: freeze-frame of glaucoma

8:50
- Retinal detachments therapeutic content
- Vascular ophthalmology: therapeutic implications of neovascularisations
- The ABCs of orbit neurological pathologies

9:10
- In English: Cataracts
- In English: Cataracts
- In English: Cataracts

9:30
- In English: Cataracts
- In English: Cataracts
- In English: Cataracts

9:50
- In English: Cataracts
- In English: Cataracts
- In English: Cataracts

**ROOM 5**

8:30
- Retinal detachments therapeutic content
- Vascular ophthalmology: therapeutic implications of neovascularisations
- The ABCs of orbit neurological pathologies

8:50
- Multiple choice questions: do you choose and place them well and in time
- irrigate and to know in macular surgery
- Multiple choice questions: how to wait and in time

9:10
- New in CCM: intracorneal rings, learn to choose and place them
- New paradigms in surface pathology
- Neuro ophthalmology? 6

9:30
- Video session: from the universe to the retina: illustrated point of view
