# A *live* EXPERIENCE THAT GOES BEYOND BORDERS

## THE WORLD CONNECTED ON IMCAS.LIVE

A key objective of IMCAS Asia 2021 is to stimulate growth through exchange. The 3 hubs highlighted below act as the pillars of the scientific program, each site leading the discussions and engaging the audience across borders online. We're redefining the notion of virtual education by pushing forward an innovative and interactive learning experience.

IMCAS.LIVE

### MAIN EVENT ON THE VIRTUAL PLATFORM

The entire congress is live streamed through IMCAS.Live, the smart platform allows you to watch and replay sessions, or chat with speakers and friends from the comfort of your home or office.

SHANGHAI HUB

### LOCAL HUB FOR IN-PERSON GATHERING

Local physicians can gather in person at our "Hub" in Shanghai where they can enjoy live streams of 2 rooms together in the company of friends and colleagues.

PARIS HEADQUARTER

### HEADERQUARTER OF LIVE BROADCASTS

Our headquarter, Paris, serves as the main set for two of our key sessions!

#### • LIVE ANATOMY ON CADAVER WORKSHOP

The LIVE cadaver dissections from the prestigious Fer à Moulin School of Surgery in Paris are broadcast virtually to delegates online, and to a conference room in Shanghai.

#### • LIVE TALK SHOW

The hosting experts gather in person at a studio set in Paris for animated discussion on controversial topics that shook 2021! These educational talks are broadcast virtually only to delegates online.

## DEAR COLLEAGUES

Due to the increase of COVID-19 infections in Taiwan, IMCAS Asia 2021 is switching formats.

IMCAS Asia 2021 therefore takes place as a virtual conference on the IMCAS.Live, our innovative platform optimized for interactions online. This exclusive live platform will open a few days ahead of the congress for IMCAS Asia attendees only.

Along with the digital attendance, IMCAS Asia also proposes a physical "Hub" in Shanghai, a satellite location where local physicians can gather in person to watch the live streams of certain sessions from the main congress. Join us at our Shanghai Hub at the Tongji Hospital of Tongji University, and enjoy sessions from 2 rooms simultaneously translated to Chinese in the company of local colleagues.

The program content remains exactly the same! The best experts connect from all over the world to present their latest techniques & studies, and answer all your questions through the chat. The different session formats of this year's program strongly encourage communication and connection, fostering growth for all our community members.

The unmissable Anatomy on Cadaver Workshop is back and broadcast LIVE from Paris. Internationally renowned specialists & experts bring their evidence-based updates

on topics like injectables, toxins, lasers, pigmentation, threads, hair restoration, face, breast & body surgery. This edition also introduces brand-new subjects like echographic injections, vascular complications and COVID-19.

Learning opportunities continue in-between the sessions with the LIVE Talk Show, which takes place at a studio also set in Paris. The hosting experts lead more laid-back debates, introducing refreshing angles of controversial topics to further stimulate your brain.

We have seen that even in lockdown, exchanging opinions, approaches and perspectives helped deepen the understanding and broaden the knowledge, regardless of the distance. Our collaborations with the prestigious academic societies are an example of growing through reciprocity. The more we learn from each other, the further we advance together in science.

We deeply thank you for your trust and understanding during these challenging times! And we hope you will join the community online or in Shanghai to find out what lies in the future of our profession, and to accelerate your practice in 2021.

## INTERACTIVE SESSION FORMATS

### LIVE ANATOMY CADAVER WORKSHOP

A step-by-step training that encompasses LIVE cadaver dissections with LIVE patient injections for the ultimate learning experience.

### VIDEO ANATOMY CADAVER WORKSHOP

A step-by-step training with VIDEO cadaver dissections and LIVE patient injections.

### BATTLE *New*

A one-on-one duels on a current issue where speakers defend their techniques and approaches... Only one side wins!

### CLINICAL CASE

Unusual or difficult cases laid forth by experts followed by assessment of different treatment outcomes and patient care.

### DEBATE

A structured discussion between speakers sharing opinions on a debated issue.

### ROUND TABLE

Key experts give multiple perspectives to a pre-determined topic.

### TALK SHOW

A more relaxed, laid-back exchange during the breaks where show hosts follow up on previous sessions with refreshing angles & insights.

# HOW DOES IMCAS RETRIEVE ITS REVENUES?

Companies may financially support IMCAS in two distinct ways – a sponsorship or educational grant – depending on whether they have a direct influence on the program content. The registration fees from each of our congresses enable us to continuously improve our educational material and therefore better meet your learning requirements.

IMCAS derives its revenue from two different sources. To uphold our commitment to providing bias-free and evidence-based educational content, IMCAS makes a clear distinction between the scientific and industry-led sessions, along with a transparent disclosure of the origins of our revenue.

## SPONSORSHIP

Sponsorship is the direct financial support for an activity under the terms of a mutually beneficial exchange between the supporting company and IMCAS. In return for financial support of a live demonstration, a symposium or a guest lecture, the sponsoring company may present syntheses of studies or trials, practical solutions to specific patient problems and / or live demonstrations to the audience. The content of these sponsored sessions is therefore not endorsed by IMCAS.

## EDUCATIONAL GRANT

An educational grant is a financial donation where the funds are allocated to cover specific costs related to the provision of a balanced and scientifically independent activity. Unlike a sponsorship, which is characterized by promotional or advertising messages, a grant is a unilateral gesture. Funds are given by the donor to support a project or program; therefore, the scientific content is entirely developed by the Scientific Committee and eligible for CME accreditation.

# GENERAL INFO

## MARK THIS PAGE

### BADGE ACCESS

IMCAS welcomes all professionals active in the world of aesthetics, including doctors and related professional bodies. Access to sessions depends on each badge category, whether the delegate is a board-certified physician, a registered nurse or a corporate professional.

Once you purchase a badge under your name, it is not transferable to another individual.

Please check our registration form for the badge categories, their accesses and cancellation policy.

### CONFLICT OF INTEREST (COI) POLICY

IMCAS insists on transparency in all scientific courses, therefore each speaker is required to disclose whether or not their presentations contain any commercial bias or financial support received.

The COI policy applies to anyone who is a speaker during the congress or contributes to the development of the scientific program; this includes all members of the Scientific Board and all faculty members.

### CERTIFICATE OF ATTENDANCE

All delegates & speakers (non-exhibitors) are eligible to receive a Certificate of Attendance.

At the end of the conference, each registered delegate has to fill in the online evaluation form by August 10th. To do so, you have to log in to your personal account and follow the instructions on IMCAS website: [www.imcas.com](http://www.imcas.com)

Once your evaluation is submitted, your Certificate of Attendance will then be available for download on your account along with a full explanation on how to claim your CME credits to your local authorities.

### CME CREDITS

For IMCAS Asia 2021, IMCAS has obtained the accreditation from: **Thailand Medical Council (CCME)** :

- 5 CME for the full conference
- 0,5 CME per-hour attended
- All Thai registered doctors are eligible to claim credits for this activity

**Taiwan Academy of Facial Plastic & Reconstructive Surgery (TAFPRS):**

- 1.5 CME credit per scientific session for Participants
- 5 CME credits per presentation delivered for Speakers
- Available only for Taiwanese Facial Surgeons

### EDUCATIONAL GRANT

A grant is a financial donation from a company. Funds are given by the donor to support a project or program; however, the scientific content is developed entirely by the Scientific Committee which makes them eligible for CME accreditation.

For IMCAS Asia 2021, 6 sessions are under an educational grant.

### REPLAY

On-demand replays will be available immediately at the end of each session! Plus all you have exclusive access to 2 weeks of replay of the entire congress.

### SPONSORSHIP

A sponsorship for a session entails a partnership with IMCAS and the sponsoring company. A company provides direct financial support for an activity and in return, the sponsoring company may present lectures promoting their product. The content of these sponsored sessions is therefore not endorsed by IMCAS.

For IMCAS Asia 2021, 5 sessions are sponsored.

### TECHNICAL SUPPORT

Faced with a technical issue on the [www.imcas.live](http://www.imcas.live) platform? Help is always available through live chats! Just let us know through the chat what issues you encountered and our staff will help you out in real-time.

### TRANSLATION

The official conference language is English, but simultaneous translation from English to Chinese is offered for sessions on Channels 1 through 4, plus the Talk Show taking place in between the sessions.

IMCAS Asia Tribune, also live streamed on all channels at the end of Day 1, is available in English only.
