# ASIA 2023 Welcome

## Redefine What's Possible.

IMCAS Asia 2023 is excited to be back in Bangkok, the heart of Thailand's aesthetic capital, to explore new methods and advancements in dermatology, plastic surgery, and aging science. Bringing together a regional and international community of experts, this 16<sup>th</sup> edition delves into a vast selection of topics within injection and aesthetic procedures.

This year, IMCAS Surgery takes on the complexities of invasive treatment, featuring experts who present an interdisciplinary study of their own methods and combined techniques for facial rejuvenation, breast augmentation, and gender reassignment. Dedicated sessions explore the recent methods of top practitioners in Thailand, with regional scientific societies, to help you master the skills required for today's transgender treatments.

The must-attend Anatomy on Cadaver Workshop advances with new sessions on injections for the face and body. Experience the full scope of differentiated techniques for both Caucasian and Asian morphotypes in sessions with simultaneous procedure and cadaver dissections.

The clinical dermatology takes on the ways melasma commonly presents in Asian skin. Understand the various approaches, from diagnosis to treatment, among different skin qualities and

colors, and how to best treat pigmentary disorders for multiple ethnicities. Within regenerative treatments, the 2023 program explores the new research and hottest science emerging in preventative methods. Leading innovators are taking the stage for roundtable discussions on exosomes research, with additional sessions covering advanced aesthetic longevity science and the importance of complete body care.

NextGen Dermatology and NextGen Surgery courses are continuing to support intergenerational medicine and mentorship for our future physicians. This invaluable opportunity for physicians of all career points works to standardize scientific education and recognize the innovative work of brilliant young minds to build a brighter, more sustainable medical future.

To complete the occasion, the IMCAS Asia exhibition showcases all the leading regional and international players with their new products and possibilities of 2023. Network and navigate efficiently! Download the IMCAS Live app to keep up with your must-see sessions, speakers, and exhibitors.

This edition promises an enriching event with a new look into the science, products, and technologies that are shifting the eastern hemisphere and redefining the aesthetic practice. We wish you a warm welcome for another outstanding event!

# THOUGHTS FROM THE BOARD

RUMMANEETHORN Paisal  
Cosmetic Surgeon, Thailand

In the aesthetic medical world, Thailand is among the forefront of today's modern specialty subjects. We are in the center hub of the aesthetics market in Asia participating in the region's new science, research, practicing methods, and educational congresses. **Among all else, the warm Thai hospitality, smiles, and beautiful city will complete your experience before and after the congress—it is sure to be a wonderful gathering!**

I invite you each to look over this year's impressive program curated among a generous physician community and our world-renowned colleagues.

SUWANCHINDA Atchima  
Dermatologist, Thailand

**We are thrilled to have you all back for IMCAS Asia 2023. In a new era of medical intelligence that reaches new scientific boundaries, our mission is to bring the world of East and West together to share the pearls of wisdom of aesthetic practice.**

As always, we aim to keep a high standard of scientific knowledge with evidence-based lectures and the latest aesthetic innovations. With our strong scientific sources and partners, we are honored to support the pursuit of higher education to achieve superior patient care and remarkable treatment results.

CARTIER Hugues  
Dermatologist, France

GARSON Sebastien  
Plastic Surgeon, France

**For centuries, Asia has been a center of medicine with methods far ahead of many surrounding and western societies. It holds a rich history of body-centered philosophies, inventive treatments, and even remains as the founder of aesthetic medicine over 2000 years ago. It is no surprise that we should gather here to both commemorate and to continue this tradition of medical advancement and innovation.**

With a fresh and present-day perspective, this year brings a wealth of wisdom and new techniques to offer you the best education among a strong community of fellow experts and practicing colleagues. We advance forward through the support of both new and returning faces to create a practice of dermatology and plastic surgery that is safe and effective, as well as inclusive for all patients and future generations.

It is an honor to return here with you all for this far-reaching 16<sup>th</sup> edition. May you discover new methods, advance your thinking, and inspire the new work of our practicing future.

# SCIENTIFIC PROGRAM HIGHLIGHTS

See the major sessions and hottest trends for this year!

## ANATOMY ON CADAVER

The Anatomy on Cadaver Workshop brings together live cadaver dissections and procedure demonstrations to offer a complete learning experience. Discover the latest injection techniques and the anatomy underneath for the upper face, midface, lower face, neck, and buttocks.

### FEATURED SESSION

**S004, S005, S006 ANATOMY ON CADAVER WORKSHOP**  
Beginning Friday, June 9 at 2:00 PM

## TRANSGENDER

For many, transitional procedures are becoming a method to reflect the beauty within. Dive into the intricacies of transgender surgery, from re-sculpting the upper body through complete sexual reassignment, to master the skills of these upcoming treatments and to assist patients on all areas of the gender spectrum.

### FEATURED SESSIONS

**S035 TRANSGENDER - Breast and chest reassignment**  
Friday, June 9 at 3:00 PM  
**S036 TRANSGENDER - Sexual reassignment**  
Friday, June 9 at 4:30 PM

## REGENERATIVE MEDICINE

Regeneration lies at the center of aging science. Discover the latest studies in Polynucleotides, PRP, exosomes, and nonfat and their cutting-edge treatment applications for scar tissue repair, skin and hair rejuvenation, and bioregeneration.

### FEATURED SESSIONS

**S025 CLINICAL DERMATOLOGY - Wound healing, aesthetic repair, exosomes**  
Friday, June 9 at 9:00 AM  
**S010, S011 CELL THERAPY - What's new in regenerative medicine**  
Friday, June 9 at 2:00 PM  
**S061 EXOSOMES - Indication, application, safety uses**  
Saturday, June 10 at 9:00 AM

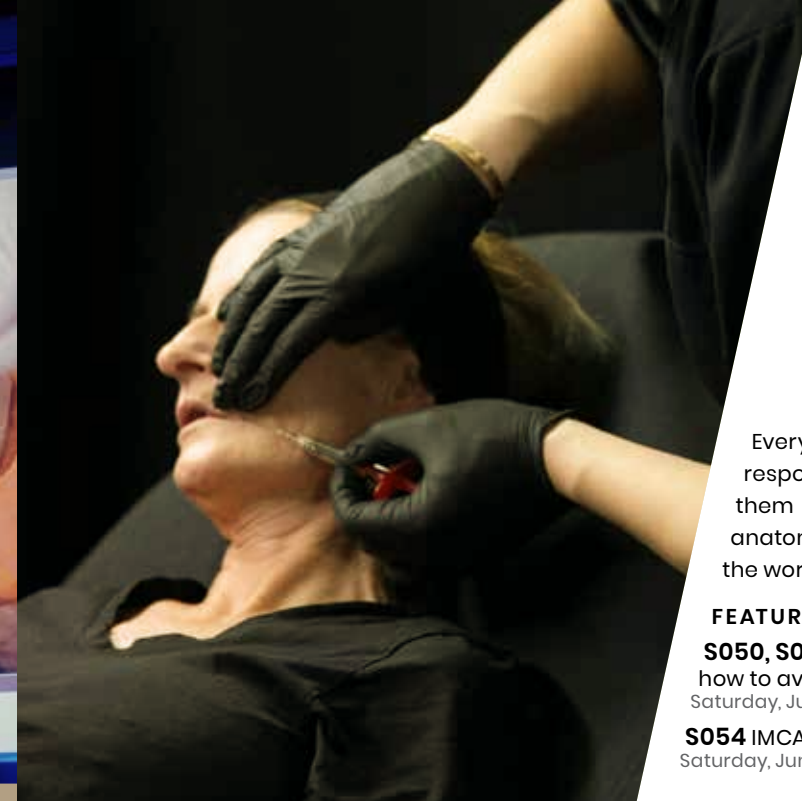

## INJECTION COMPLICATIONS

Every procedure involves risk, and as skilled physicians, it is our responsibility to understand them and to know how to best treat them if they do arise. Extend your treatment abilities through anatomy-focused case studies and IMCAS Alert panels to see how the world's leading experts reassess and maintain top results.

### FEATURED SESSIONS

**S050, S051 INJECTABLES - Difficult clinical cases of complications, how to avoid and how to remedy**  
Saturday, June 10 at 11:00 AM  
**S054 IMCAS ALERT - How to avoid the injectable complications**  
Saturday, June 10 at 4:30 PM

## THREADS

Explore thread methods from across Asia. Sessions examine treatment approaches by needle type and by patient morphotype, including demonstrations and round table discussions on procedural pitfalls, long term treatment effects, and ways to implement threads as a safe and non-invasive facelift alternative.

### FEATURED SESSIONS

**S055 THREADS - Facial lifting and safety**  
Saturday, June 10 at 9:00 AM  
**S056, S057 THREADS - Debate: techniques in different countries**  
Saturday, June 10 at 11:00 AM

## LONGEVITY SCIENCE

Lifestyle and genetics play a large role in the way aging presents and progresses. Join our experts in their recent work to define the genes, environments, and practices necessary for achieving longevity and youthfulness.

### FEATURED SESSION

# SCIENTIFIC PROGRAM

## WE'LL EXPLAIN HOW IT WORKS!

IMCAS works diligently to maintain a strict distinction between all scientific and commercial content. The IMCAS scientific program is largely divided into non-sponsored and sponsored sessions that fall within the one of the 4 areas below:

### SCIENTIFIC SESSIONS (NON-SPONSORED)

Scientific sessions provide learning material that is entirely based on medical research. The contents of non-sponsored sessions are built by the IMCAS Scientific Committee and partnering academic societies, both ensuring that there are no biases or influences from commercial bodies.

### SCIENTIFIC SESSIONS UNDER AN UNRESTRICTED EDUCATIONAL GRANT (NON-SPONSORED)

Educational grants are financial contributions that IMCAS receives from partnering institutions and medical organizations. These donations are non-sponsored and provide support for the educational and impartial research presented in our congress sessions.

### CONTRIBUTING LECTURES

Contributing lectures consist of fellow experts and professionals within the aesthetic fields who wish to present their current, scientific work to the greater aesthetic community. Each lecturer acts as an individual representative of their work and are selected by the IMCAS Scientific Board based on the submission of their abstract.

### SPONSORED SESSIONS

Sponsored sessions are congress partnerships that allow individual companies to present their lectures and promote their products. These sessions receive financial compensation and are not endorsed by IMCAS. All sponsored sessions are clearly indicated in the scientific program per the rules and regulations of the IMCAS COI policy.

**IMCAS ASIA 2023**

**129 LEARNING HOURS**

**97 HOURS (75%) SCIENTIFIC SESSIONS (NON-SPONSORED)**

**11.5 HOURS** of sessions under an unrestricted educational grant

**32 HOURS (25%) SPONSORED SESSIONS**

**21 HOURS** of industry symposia

**2.5 HOURS** of live demonstrations

**8.5 HOURS** of industry guest lectures

# THE IMCAS OBJECTIVE

OFFERING THE BEST IN DERMATOLOGY AND PLASTIC SURGERY EDUCATION

### IMCAS ASIA 2023 IS CERTIFIED UNDER CCME

IMCAS continues to build strong working relationships between healthcare professionals (HCPs) and the aesthetic industry by complying to various ethical standards to ensure that all content presented is clearly identifiable and accurately endorsed. All educational content provided within our scientific programs is provided by transparent and verifiable sources and is endorsed by the Medical Council of Thailand.

CME credits are therefore available for all practicing physicians in Thailand who participate in IMCAS Asia 2023, issued by the CCME - Center for Continuing Medical Education of Thailand.

To claim your CME credits, login or register to the CCME website [www.ccme.or.th](http://www.ccme.or.th) and send your 2023 IMCAS Asia.

IMCAS Asia 2023 credits are validated by the Thailand Medical Council, the official CME provider for medical education activities in Thailand through the organism CCME - Center for Continuing Medical Education.

**Participants:** 9 points per day  
**Speakers:** 5 points per lecture  
**Total per participant:** 27 points

# IMCAS CONFLICT OF INTEREST (COI) POLICY

**All IMCAS speakers are required to disclose any potential influences that may be seen as a conflict of interest (COI) within their scientific presentations. This includes any personal or financial relationships maintained with a commercial or non-commercial entity that could distort or influence the content of a presentation.**

The COI policy applies to anyone who is a speaker during the congress or contributes to the development of the scientific program, including all faculty members and members of the Scientific Board.

The label "No Conflict of Interest" means that neither the speaker or any members of his or her immediate family maintains a financial relationship or affiliation with any products, devices, or companies.

# CERTIFICATE OF ATTENDANCE

**1**

# GENERAL INFO

## MARK THIS PAGE

### ACCIDENTS, DAMAGES, & LOSS

IMCAS and The Athenee Hotel, a Luxury Collection Hotel, accepts no liability for damages and/or losses of any kind that may be incurred during the official conference and related social programs.

All attendees participate in the congress event(s) at their own risk and are advised to have insurance against any loss, accidents, or damages that could take place during the congress. Verbal agreements will not be binding unless confirmed in writing.

Please do not leave any property unattended in the venue as each participant is responsible for their own personal property. If you are looking for any lost items, come to the Welcome Desk and a member of staff will be happy to assist you.

### BADGE ACCESSES

IMCAS welcomes all professionals active in the world of dermatology, plastic surgery, and aesthetics, including doctors and related professional bodies. Access to conference rooms is contingent on each badge category and whether the delegate is a board-certified plastic surgeon, physician, registered nurse, or corporate professional. Once a badge has been purchased for an individual, it is not transferable to another individual.

Please check the registration form for all badge categories, accesses, and cancellation policies.

### CONGRESS VENUE

**The Athenee Hotel, a Luxury Collection Hotel**  
61 Wireless Road (Witthayu), Lumpini, Pathumwan  
Bangkok, 10330, Thailand

### CONFLICT OF INTEREST

IMCAS maintains complete transparency for all scientific courses and materials. All speakers are therefore required to disclose if any presentations contain commercial bias or financial support. The COI policy applies to anyone who presents during the event or contributes to the scientific program, including all faculty members and members of the Scientific Board. Any events that are sponsored are clearly marked. To read more on how the scientific program is built, IMCAS certifications, and our scientific policies, visit page 19.

### CERTIFICATE OF ATTENDANCE AND CME CREDITS

All delegates & speakers (non-exhibitors) are eligible to receive a Certificate of Attendance and Continuing Medical Education (CME) credits. This year's program offers up to 27 CME credits in total. Visit page 19 for more information.

### E-POSTERS

LEVEL 2

The e-posters digital touch screens in the exhibition hall. Head over to read recently published research and scientific articles from our scientific community (available in English only).

**Sponsored by Novacutan**

### EDUCATIONAL GRANTS

These grants are considered as financial donations. Funds are given by the donating company to support a project or program, but the scientific content is developed entirely by the Scientific Committee. This enables all grant sessions to be eligible for CME accreditation.

### EXHIBITION

LEVELS 2 & 3

The exhibition is open each of the congress days from 9 AM and is accessible to all badge holders during session hours. Check out the IMCAS Live app for an updated list of all sponsors and exhibiting companies.

### FOOD & BEVERAGE STATIONS

## LeShape

The new concept of diode laser system  
For lipolysis by 1060nm

Specifications	
Laser diode type	High Power Continuous Wave Laser Diode
Laser output range	0.5 W/cm <sup>2</sup> - 1.4W/cm <sup>2</sup> (per 0.05W/cm <sup>2</sup> )
Pulse duration	On time: 20sec, Off time: 10sec
Display	10inch / 1280 x 800, IPS
Dimensions	885 x 865 x 1350mm (Full package)
Power output	Water Cooling with TEC Module Auto Control
Laser diode power	60W Max
Wavelength	1060nm
Weight	85kg (Full package)
Power Input	100-240V~, 50/60Hz, 2.3kVA Max
Optical guide	Sapphire crystal

## INSHAPE

Electromagnetic System For Body Shaping

Specifications	
Technology	Electromagnetic system
Electrical requirement	220V ~ 230V / 50 ~ 60Hz
Power consumption	2.3KVA
Weight	66kg
Dimension	460 x 590 x 1280mm

Features	
- Proven effect both on Muscle & Fat	
- Treatment ONLY in 30min	
- Non invasive	
- No downtime	

## Dual-HI

	Body 6.5, 9.5, 13 mm Depth
Treatment Length	Face 31mm max
	Body 45mm max
Energy	Face 1.5J max. (0.05J step)
	Body 2.5J max. (0.1J step)
Pitch	Face 0.5-2.0mm (0.1mm step)
	Body 0.5-3.0mm (0.1mm step)

## HESTIA

Co2 Fractional Laser with Scanner

Specifications	
Laser type	Co2 Laser, Glass tube
Laser power	40W
Operation Mode	Surgical mode / Fractional mode
Energy	5 - 150 mJ
Distance	0.2 - 2.0mm
Repetition rates	Single - 3.0s (0.5 step)
Scan size	1 x 1 - 20 x 20mm
Electrical requirement	220V ~ 230V, 50/60Hz, 1.5kVA
Dimensions	380 x 395 x 1785mm (W X D X H)
Weight	37kg

## INVESTA

Nd:YAG for Tatto Removal and Pigment Lesion

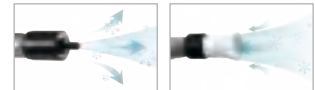

Specifications	
Laser Medium	Nd:YAG Crystal
Wavelength	1064nm / 532nm
Operating Mode	1064nm / Andy toning [PTP] / 532nm / Long-Peel [FR]
Beam Profile	Top Mode
Pulse Energy	MAX. 1600MJ [1064NM]
	MAX. 1600MJ [ANDY TONING [PTP]]
	MAX. 500MJ [532NM]
	MAX. 2200MJ [LONG-PEEL [FR]]
Pulse rate	1 - 15hz
Cooling System	Closed cycle water to air heat exchanger
Pulse Width	5ns-10ns [1064nm]
	5ns-10ns [Andy toning [PTP]]
	5ns-10ns [532nm]
	300us [LONG-PEEL [FR]]
Power Input	220-230VAC, 3kVA
Dimension	600 x 850 x 270 mm
Weight	65kg

## MACURAY

2 in 1 Cooling System  
(Air Cooling + Smoke Evacuator)

Specifications	
Electrical Requirement	220-230V AC 50 / 60Hz
Power Consumption	Cooling Device : 450W Smoke Evacuator : 1,100W
Air Cooling Delivery	45 CFM
Vacuum Power	2,400 mmHg20
Air Cooling Temperature	Cooling Air : Max -20 °C (±5 °C) (Based on 23°C Surrounding Temp & Humidity is 40%)
Weight	35 kg (Net.)
Dimension	340 x 400 x 910mm (W X D X H) 1310(H)mm with Pole (Available separation Pole)
