ASIA 2024

The Science begins here!

It is with great pleasure and excitement that we extend a warm welcome to you to IMCAS Asia 2024. This 17th edition promises another transformative event that brings together the brightest minds in dermatology, plastic surgery, and aging science from all of Asia and around the world. The extensive treatment climate of Thailand offers an abundance of technical wisdom and new regional products to provide a truly comprehensive understanding of modern trends and a strong practicing skillset.

Covering global development in medicine and technology, we aim to create a collaborative setting to address growing topics such as energy-based devices, injectables, biostimulators, upcoming trends, and new procedural techniques. Explore the fundamentals of science and anatomy in the live sugery and Cadaver Workshops and build confidence in performing aesthetic treatments that are trending in our region and treatment work.

Our scientific committees and partners have worked diligently to curate an engaging and thought-provoking program that we are confident you will find both informative and inspiring. There is also an abundance of new technology and business that the region has to offer on display in the exhibition hall. Be prepared to immerse yourself in a dynamic atmosphere where knowledge knows no boundaries, and connections are made that will last a lifetime. As you embark on this journey of learning, we invite you to explore the unique blend of tradition and modernity that Bangkok has to offer.

We wish you a warm welcome to the Land of Smiles!
The IMCAS Scientific Board

SPEAKER LIST

IMCAS is honored to host the following distinguished board of experts to provide an interdisciplinary educational program of the highest quality.

IMCAS SCIENTIFIC BOARD

COURSE DIRECTORS

Hugues
CARTIER
Dermatologist
France

Sebastien
GARSON
Plastic Surgeon
France

COURSE COORDINATORS

Paisal
RUMMANEETHORN
Cosmetic Surgeon
Thailand

SCIENTIFIC PROGRAM

The IMCAS Asia Scientific Program brings you the leading trends and highlights of current treatments and clinical science. Stay on top of your game with cutting-edge science and emerging research, so that you can provide the best patient results.

Program at a glance

Regenerative Medicine

The name of the game when it comes to understanding and preventing age. Unlock the latest regenerative science and ongoing treatment myths. Sessions feature multi-modality approaches with PRP, SVF, and PR; the miracle of exosomes; biostimulator applications and PDRN; & combined treatments using upcoming therapies.

- FOCUS SESSIONS
- 007 PRP & Stem cells
 - 008, 009 Exosome
 - 094, 095 Biostimulator & Innovation

All bodies, skin types, and biological biomes are different and modern patients need physicians who understand this. Sessions feature male enhancement, facial variations over time, medical and aesthetic approaches by ethnicity, body sculpting when encountering visceral fat, laser for skin of color, social parameters, & beauty in Middle East.

- FOCUS SESSIONS
- 092 Male face and body - How do I optimize
 - 093 Overweight and obesity - How do I treat

Morphotypic methods

Anatomy on cadaver

Understanding anatomy and danger zones remains the foundation of facial sculpting and a strong medical skillset. Sessions feature simultaneous live injection and cadaver dissections for the face, including forehead and temple, periorbital and cheek, nose, nasolabial folds, jawline, & neck.

- FOCUS SESSIONS
- 004 Forehead and temple
 - 005 Periorbital, cheek and nose
 - 006 Nasolabial folds, lips, jawline and neck

From those new to the specialty to seasoned practitioners, injectables remain as a cornerstone procedure for both clinical and aesthetic applications. Sessions feature asymmetry correction, future product expectations, limitations by age morphotypes, unusual complications, & technique by anatomical region.

- FOCUS SESSIONS
- 050, 051 IMCAS ALERT – Complications
 - 054 Injectables for the young and the elder
 - 073 Toxin: face to face006 Nasolabial folds, lips, jawline, and neck
 - 103 INJECTABLES – Cases on anatomy and complication

Injectables

Pair injectables with ultrasound!

US technology has advanced into an invaluable tool that offers new diagnostic abilities and more precise treatment. Discover present and future uses, where to start, new injection and detection methods, as well as hands-on practice!

Join sessions 036 Ultrasonography (Part 1), 078 Ultrasonography practice (Part 2), and a hands on private course with experts on Saturday & Sunday.

REGISTRATION & SESSION INFO

Laser & EBD

Knowing the latest tech and how to use it effectively is crucial in the world of cosmetic, noninvasive treatment. Sessions feature maximizing results using monopolar radiofrequencies, MNRF and scars, tips for tattoo and hair removal, methods to maintain skin rejuvenation, pigmentary management, & hyperpigmentation prevention.

- FOCUS SESSIONS
- 020 Laser for pigmentation
 - 022 Why shall we purchase a pico laser
 - 024 Laser for acne, how to optimise your device
 - 116, 117 IMCAS ALERT

Understand current markers for diagnosis and strategies for healing. Sessions feature rosacea complications in skin of color, insights for dark circles, acne scar treatment enhancement, needleless injection, resurfacing scars with laser, freckle therapies, new topical treatments in melasma, & new methods for rejuvenation.

- FOCUS SESSIONS
- 031 Rosacea & Red face
 - 032, 033 Acne scar, from topical retinoids to laser, update
 - 034 Melasma

Clinical dermatology

And much more!

Browse the full program on the IMCAS Live app.

How to avoid complications

At the time of print, the information may not be final. All updated information is available online on the IMCAS website or through the official congress app IMCAS Live.

MAKING AN IMPACT WITH TRANSPARENCY, ETHICS, & SCIENCE

At IMCAS, our goal is to uphold the established guidelines within the world of medicine, and ensure that we host congresses that provide safe, sustainable, and accurate educational information. IMCAS Impact is our next step in maintaining these values in an even more purposeful way.

Education

Connect, compare, and learn the latest science

Safety

Learn verified, preventative methods

Ethics

Navigate the ethics of aesthetic treatment

Technology

Discover new applications of medical technology

ACCREDITATION & CCME

CME credits are validated by the Thailand Medical Council, the official CME provider for medical education activities in Thailand through the CCME - Center for Continuing Medical Education of Thailand.

We do this to maintain strong working relationships between healthcare professionals and the aesthetic industry through the compliance of established ethical standards and complete educational transparency.

IMCAS FUND

The IMCAS Fund mission statement is to further the advancements of science, sustainable innovation, and research in dermatology, plastic surgery, and aging science.

“Research is fundamental to achieving development in the dermatological and plastic surgery fields, and the importance of development in these fields cannot be overstated. The symbiosis between medical researchers and practitioners should be encouraged, for together we grow as a community and support medical research, which in turn will help practitioners better serve their patients.”

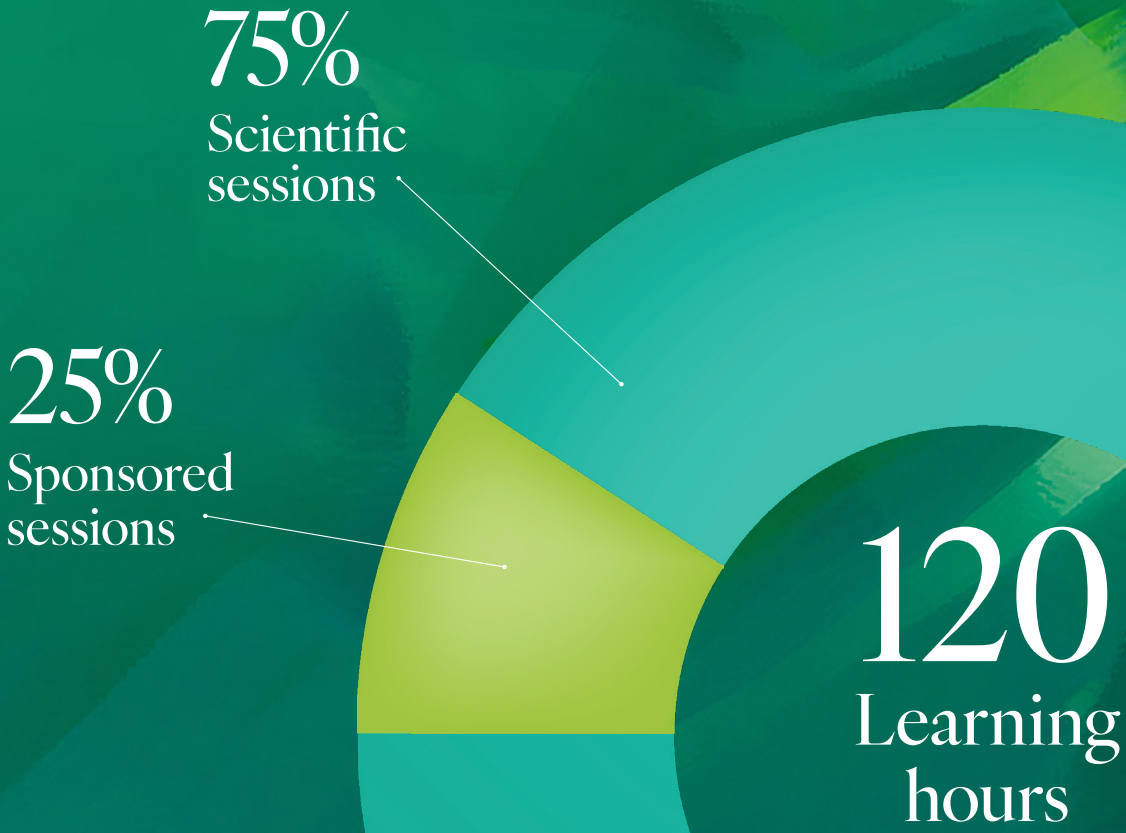

Dr Peter VELTHUIS, DERMATOLOGIST, PhD, Netherlands

The IMCAS fund is a non-profit organization whose purpose is to receive and manage funds to finance selected projects.

EXHIBITION & SPONSORED PROGRAM

It is our mission to provide complete educational transparency. The following section includes sponsor profiles and their supported events, indicating that these sessions and activities may promote a product or service on behalf of the sponsoring company.

COMPANY PROFILES

ACCLARO MEDICAL

ACCLARO MEDICAL

[HTTPS://ULTRACLEARLASER.COM](https://ultraclearlaser.com)

Founded in 2018 by world-class industry experts and a group of top physicians in the nation, Acclaro Corporation is a US-based, fast-growing medical device company committed to innovating and developing game-changing solutions to address today's most challenging unmet needs in the global medical aesthetic, ophthalmic and surgical markets.

Acclaro's flagship product, UltraClear™, is the world's first cold ablative, fractional fiber laser, a breakthrough nearly pain-free anti-aging solution and the most powerful all-in-one skin rejuvenation platform for all skin types, addressing the unmet needs of treating skin of color with significantly increased safety without muting the results.

Powered by the revolutionary MID IR Fiber Laser with the new wavelength of 2910nm and unrivaled precision energy control capabilities, UltraClear™ offers a full range of skin rejuvenation outcomes from true anti-aging lunchtime treatments to most advanced collagen remodeling.

ADVALIGHT

ADVALIGHT CORP

[HTTP://ADVALIGHT.COM/](http://advalight.com/)

Advalight is the Denmark based company behind one of the world's most advanced solid-state dual-wavelength lasers, ADVATx, which combines the two wavelengths, 589nm and 1319nm, in 1 handpiece.

The ADVATx is FDA/CE approved for 25 different indications, but is particularly strong when it comes to Skin Rejuvenation, Acne, Pigment, and Vascular Abnormalities. Apart from the excellent results, the ADVATx stands out by having no running costs, and by providing exceptional patient satisfaction due to minimal discomfort, no anaesthesia or cooling needed, as well as no social downtime.

The company is headquartered in Copenhagen, Denmark and employs a team of leading laser experts, dedicated sales & clinical professionals and a growing network of distributors worldwide.

ACMEDI KOREA CO., LTD

ACMEDI KOREA CO LTD

[HTTP://WWW.ACMEKOREA.COM](http://www.acmedikorea.com)

ACMEDI KOREA Co., Ltd is a specialized exporting company based in Seoul, Korea. We handle all kinds of Aesthetic & Dermatological Medicine and cosmetics for professional uses. ALMA

ALMA LASERS GMBH

[HTTP://WWW.ALMALASERS.COM/](http://www.almalasers.com/)

Change is a natural process, but it doesn't always go according to our plans. That's where Alma's technology comes in and places the control back in our hands.

As a leading company in the field of medical aesthetics we enable thousands of physicians to help millions of patients experience truly remarkable transformations. Alma enables you to provide the most effective, quick and safe treatment possible to each person that walks into your clinic. Clinical expertise, dedicated service and marketing support, as well as innovative technological developments: all these work together to create a comprehensive support system that benefits you.

In a world that is constantly changing, one thing remains constant: patients need to know they are getting the best care possible – before, during and after their treatment. When our solution is in your hands – that promise becomes a reality.

ANTEAGE MD

ANTE AGE – CELLESE

[HTTP://ANTEAGE.COM/](http://anteage.com/)

AnteAGE MD® is the newest generation of growth factor skincare and treatments. Scientists discovered that a specific population of cells direct natural skin repair: the bone marrow mesenchymal stem cells. Our team has decoded the anti-inflammatory biosignal language of these cells and have cultured them in the lab for use in powerful and targeted anti-aging skin treatments. For all energy treatments including microneedling and radiofrequency, hair regrowth, vaginal rejuvenation, skin brightening, and general anti-aging, AnteAGE MD® delivers the exact natural biosignals needed for healing and rejuvenation.

Based in Irvine, California, our team is regularly published in scientific journals, awarded for groundbreaking results, and sought after for their expertise by practitioners in more than 35 countries.

APA AESTHETIC GLOBAL

APA AESTHETIC GLOBAL CO LTD

[HTTPS://APAAESTHETICGLOBAL.COM](https://apaaestheticglobal.com)

APA AESTHETIC GLOBAL Co. Ltd. was founded in 2018 under previous name APA BIOTECHS CARE. We aim to source products that meet the needs of aesthetic patients. Our company focuses on high-quality products with international standards and prioritizes patient safety as the core of our operations.

We import and distribute cosmeceuticals and injectable medical products from Global. Over the past 6 years. We have partnered with over 800 clinics and hospitals and collaborated with leading Thai KOLs.

On September 22, 2023, the company changed its name to APA AESTHETIC GLOBAL to become a leader in the aesthetic market in Thailand.

APTOS

APTOS LLC

[HTTP://APTOS.GLOBAL/](http://aptos.global/)

Here at Aptos, we believe in innovation, experience, and education. We are the proud inventors of cutting-edge technology of minimally invasive threads and methods of the face and body lifting, contouring, and rejuvenation.

Our history counts over two decades of innovation and product development. The methods were invented by the Georgian plastic surgeon Dr. Marlen Sulamanidze and further developed by his sons plastic surgeons Dr. George Sulamanidze and Dr. Konstantin Sulamanidze.

Aptos heritage counts up to 30 threads and more than 50 methods shared worldwide via selected professional distribution partners. Aptos threads and methods have obtained 18 patents of which 8 are international.

ARTHREX GMBH

ARTHREX GMBH

[HTTPS://WWW.AARTHREX.COM/](https://www.arthrex.com/)

With more than 7000 employees, Arthrex is one of the leading companies in orthopedics, orthobiologics and sports medicine. Being a market leader and having experience for more than 10 years with PRP, Arthrex is distributing its PRP systems beside orthopedics and sports medicine directly or with dedicated partners in the field of Dermatology, Plastic Surgery and Aesthetic Medicine. With the ACP Double Syringe no additives such as anticoagulants are required for production of PRP. 5–6 ml of PRP can be generated within a few minutes in a closed system. Studies testified that the production of leucocyte-poor PRP with a high concentration of platelets ($2.5 \pm 20\%$) is reliable using ACP Double Syringe. Moreover Microfat and Stromal Vascular Fraction can be prepared with the ACP Double Syringe and the Adipose Tissue Harvesting Kit. Helping Surgeons Treat Their Patients Better is the mission of Arthrex. Therefore Arthrex offers unique training programs beside innovative and reliable products.

APHRODITE

CMHC – APHRODITE

[HTTPS://WWW.CMHCAA.COM/](https://www.cmhcaa.com/)

We, CMHC, are committed to ensuring the highest quality of products for customers and push quality standard higher to reach customers' expectations.

We have been marketing Aphrodite lifting thread, filler, cannula – the greatest quality secured by CE, GMP and ISO – and skin boosters to all over the world. All products are produced in Korea, in all steps of process from manufacturing to packaging.

We aim to continually improve production capacity and value proposition and to maintain long and trusted relationships with customers.

APYX MEDICAL

APYX MEDICAL

[HTTP://WWW.APYXMEDICAL.COM](http://www.apyxmedical.com)

Apyx Medical Corporation is an advanced energy technology company with a passion for elevating people's lives through innovative products, including its Helium Plasma Technology products marketed and sold as Renuvion® in the cosmetic surgery market and J-Plasma® in the hospital surgical market. Renuvion uses helium plasma and radiofrequency energy to contract tissue, pulling the skin closer to the muscle, leaving patients with a younger and tighter-looking appearance.

Renuvion's safety and efficacy are documented in 85+ clinical papers, abstracts, and posters. Renuvion has received five new FDA clearances in the past 12 months, and holds three unique indications, including being the only product FDA-cleared for use after liposuction, and the only product FDA-cleared for subcutaneous tissue contraction.

ASTERASYS CO., LTD.

ASTERASYS CO LTD

[HTTPS://ASTERASYS.COM/](https://asterasys.com/)

ASTERASYS advances human health, based on cutting-edge development of technologies.

ASTERASYS was founded in 2015 with the primary goal of becoming a leader in smart healthcare solutions through bio (BT) and IT convergence technologies, and is also a professional medical company that released Liftera for facial skin lifting and InBalance for measuring and analyzing body composition. In 2018, ASTERASYS launched 4 Liftera series, 3 Futera series, 3 skin-care devices, 2 body composition analyzers, as well as other medical equipment for hospitals and skincare devices for beauty care clinics and salons. ASTERASYS retains a one-stop solution from in-house development of manufacturing through a technology research institute, supplying high quality products to each of its customers.

DERMAROLLER – THE ORIGINAL

DERMAROLLER GMBH / MI TO PHARM

S

BOOTH 3

GERMANY

[HTTPS://WWW.DERMAROLLER.COM/](https://www.dermaroller.com/)

We are Dermaroller GmbH. We invented microneedling. A pioneering spirit that drives and motivates us to this day.

Our roots are in the field of aesthetic medical indications. In addition, we have specialized in dermatological, surgical, and aesthetic markets. Our mission is to care for and protect our skin in all its wonderful facets.

We recently developed the next generation of microneedling energy-devices: The XCellarisPro Twist. With its unique technique, the XCellarisPro Twist is designed to deliver a deeper, more targeted treatment than traditional devices. Its fine, medical-grade needles gently stimulate the skin, triggering the body's natural healing response and promoting the production of collagen and elastin for a more youthful appearance.

Its ergonomic design ensures a comfortable grip and maximum precision, while its durable construction and replaceable needle cartridges make it a long-lasting investment.

THE FUTURE OF BODY CONTOURING

The **only** device that is FDA-cleared for use after liposuction, and the **only** device FDA-cleared for contracting subcutaneous soft tissue.¹

VISIT US AT
BOOTH #86 TO
LEARN MORE

REAL PATIENTS,
REAL RESULTS

1.FDA 510(k) Premarket Notifications K230272 & K223262.

Not all indications are approved in all markets; check with your local sales representative for further information.

The Renuvion APR Handpiece is intended for the delivery of radiofrequency energy and/or helium plasma where coagulation/contraction of soft tissue is needed. Soft tissue includes subcutaneous tissue. The Renuvion APR Handpiece is intended for the coagulation of subcutaneous soft tissues following liposuction for aesthetic body contouring. The Renuvion APR Handpiece is indicated for use in subcutaneous dermatological and aesthetic procedures to improve the appearance of lax (loose) skin in the neck and submental region. The Renuvion APR Handpiece is intended for the delivery of radiofrequency energy and/or helium plasma for cutting, coagulation and ablation of soft tissue during open surgical procedures. The Renuvion APR Handpiece is intended to be used with compatible electrosurgical generators owned by Apyx® Medical.

As with any aesthetic procedure, individual results may vary. As with all energy devices there are inherent risks associated with its use. Risk associated with the use of the Renuvion APR may include: helium embolism into the surgical site due to inadvertent introduction into the venous or arterial blood supply system, unintended burns (deep or superficial), pneumothorax, temporary or permanent nerve injury, ischemia, fibrosis, infection, pain, discomfort, gas buildup resulting in temporary and transient crepitus or pain, bleeding, hematoma, seroma, subcutaneous induration, pigmentation changes, increased healing time, scarring, asymmetry and/ or unacceptable cosmetic result. Please see the instructions for use for more detailed information.

GENERAL INFO

ACCIDENTS, DAMAGES, AND LOSSES

IMCAS and the Athenee Hotel are not responsible for any damages and/or losses that may occur during the official conference and social programs. All Congress attendees participate at their own risk and are advised to insure themselves against any loss, accident, or damages that may occur during the conference. Verbal agreements are not considered binding, unless confirmed in writing.

BADGE ACCESS

IMCAS welcomes all professionals active in the world dermatology, plastic surgery, and medical aesthetics, including physicians and all related professional bodies. Access to conference rooms is restricted to each respective badge category and the verified medical specialty of each participant.

The purchase of a badge in an individual’s name is nontransferable. All badges must be scanned to confirm verification before entering a specific area. Please refer to the registration form for badge categories, types of access, and the IMCAS cancellation policy.

CERTIFICATE OF ATTENDANCE & SPEAKER CERTIFICATE

Delegates, faculty, and contributing speakers can obtain a certificate of attendance at the end of IMCAS Asia 2024. Each registered participant and speaker is asked to fill in the online evaluation online form within the next 30 days. Once submitted, the corresponding certificate will be made available for download.

CONFLICT OF INTEREST POLICY

IMCAS values transparency in all scientific courses. As part of IMCAS’ COI policy, each speaker is required to disclose any sponsorship or commercial bias within their presentation. The COI policy applies to all Congress speakers and contributors involved in the scientific program, including faculty and members of the Scientific Board. The content within the Scientific Program consists of both sponsored and non-sponsored session material by means of educational grants and direct sponsorships. To learn more about the program, please refer to page 20.

CONGRESS FORMAT: IN PERSON & REPLAY

IMCAS Asia 2024 is fully on site, with live, in-person sessions and exhibitions for the entire duration of the conference. A 3-week replay of sessions is available exclusively on IMCAS Live (session access will be based on badge type). After the 3-week period has elapsed, replays are still available on IMCAS Academy.
