GENERAL INFO

Conference Admission and Exhibition Hall

Admission is by badge only. An adult must accompany children under the age of 16.
IMCAS China 2015 showcases companies which are displaying their products and services on the same level as the Conference hall, level 3.

Official Conference Language

Chinese is the official congress language.
A simultaneous translation English / Chinese and Chinese / English is provided.

Headphones are available at the Welcome Desk in exchange of a guarantee: passport, credit card or cash. These item(s) will be returned to you as soon as you hand back the headphones.

Nominal Badges

IMCAS strictly complies with the criteria required for CME accreditation. Therefore access to the conferences is subject to a number of strict rules, aiming to guarantee the scientific independence of the conferences, and to preserve them from any commercial interest or influence. A precise Badge Policy has been implemented, specifying the rules related to the admission to the different areas of IMCAS conferences.

IMCAS Badge Policy is mandatory for all participants. Its violation authorizes IMCAS Staff to take measures, and may lead to the withdrawal of the badge and the prohibition of access to the conference area. According to each participant's status (delegate, faculty, exhibitor, etc...), a corresponding barcoded badge is issued.

Fees for full delegate registration include:

- all conference sessions during the 3 days (except optional teaching courses)
- access to the exhibit area including lunches and coffee breaks
- the Welcome Cocktail on Friday evening

Badge Categories

IMCAS welcomes all professionals dealing with the world of aesthetics: doctors and all related professional bodies. Access to the Exhibition is available for all types of badges whereas access to Conference rooms will depend on whether one holds a doctor badge or a non-doctor badge.
Please refer to the Registration Form for more information.

Coffee & Lunch Breaks

Coffee breaks and lunches are served on site to allow our delegates to fully visit the Exhibition Hall. Complimentary food and beverage is provided to Doctor and Faculty type badges. It is our primary concern to provide you with the freshest and best products. A particular attention has been given to the content of the lunch buffets.

Friday >

Coffee breaks: 10.30 to 11 am and 5 to 5.30 pm

Lunch break: 1 to 2 pm

Welcoming cocktail: 7 pm (access open to all attendees)

Saturday >

Coffee breaks: 10.30 to 11 am and 4 to 4.30 pm

Lunch break: 1 to 2 pm

Sunday >

Coffee breaks: 10.30 to 11 am

Insurance

Neither IMCAS Secretariat nor the Kerry Convention Center accept any liability for damages and/or losses of any kind which may be incurred by congress participants or by any persons accompanying them, during both the official conferences and social program.

Attendees may participate in all events at their own risk. Attendees are advised to take out insurance against loss, accidents or damages that could be incurred during the Congress. Verbal agreements will not be binding unless they are confirmed in writing.

Optional Teaching Courses

IMCAS Congresses offer their attendees the possibility to register for optional teaching courses, providing an opportunity for in-depth exposure to specific techniques and topics, as well as more personalized contact with recognized leaders in aesthetic surgery and cosmetic dermatology.

These special courses require additional fees (please proceed to the Welcome Desk). Giving the limited number of seats, please, register early before your course selections sell out!

Recording Policy

Recording (Photographic, Video and Audio) of the sessions of IMCAS congresses is STRICTLY PROHIBITED. Violators will be banned from future meetings and their equipment will be confiscated.

Mobile Phones

As a courtesy to all speakers and attendees, please turn off your mobile phone and/or pager while attending sessions.

Evaluation Forms

Your evaluation of this meeting is extremely important to the Scientific Committee in preparing future events. Evaluation Forms should be electronically filled in during or within one month after the congress. A Certificate of Attendance will then be automatically established and emailed to the attendee.

Speakers' Preview Room

All sessions are equipped with computer projection. In order to ensure a successful congress, speakers are asked to have their presentations delivered to the Preview Room at least 2 hours before the start of the session or on the day before.

Speakers: please present yourselves at the Speaker Welcome desk where you will be given all necessary information.

E-learning Station

You will be able to visit the IMCAS E-learning Station to check your emails, view the scientific lectures in electronic format (E-PAPERS), exchange ideas about clinical cases, and send personalized emails to the authors.

Besides allowing participants to submit their evaluation and to browse the web during the whole congress period, this station completes the learning experience by providing additional content to classical scientific sessions.

Program Book & Abstracts

Each delegate receives a free IMCAS China 2015 program book. All presentation abstracts are available for consultation on the IMCAS website.

SCIENCE AT THE HEART
OF THE CONFERENCE

BOARD'S LETTER

On behalf of the IMCAS China 2015 Scientific Board, we would like to welcome you to the 3rd edition of IMCAS China, held in the vibrant city of Shanghai. Year upon year, IMCAS strives to bring you the best speakers and the broadest range of topics presented in the most innovative formats. 2015 will continue this trend.

With four rooms boasting more than 80 hours of educational sessions over three days, we are certain that there is more than enough inspiring content to please each and every one of you. We've taken on board feedback from previous years and so this year, for the first time, the majority of our sessions will last two hours, thus allowing you to dive deeper into the subjects that interest you most. Furthermore, we've developed a series of one-day classes that will give you both a broad and profound insight into the themes concerned.

At the very heart of IMCAS is its dedication to unbiased scientific content. A group of international experts have put our program together with doctors and surgeons in mind. We don't believe that one size fits all and so the organization of our congress is such that you can choose to attend the sessions that are most relevant to you and in doing so we are sure that you will feel that this congress has been tailor-made to fit your unique professional profile.

Thank you for choosing to take advantage of this opportunity to be among the hundreds of dermatologists, plastic surgeons, facial plastic surgeons and all concerned experts who are convening in Shanghai with the intention of learning, discovering and networking.

We are delighted to welcome you to the dynamic city of Shanghai for our 3rd edition.

HIGHLIGHT

FOCUS THEMES

Check out our selection of some of the most innovative themes of this year's congress. Associated with each theme are a number of dedicated sessions. Read on for a summary of the highlights of each theme.

PRACTICE MANAGEMENT, MEDSPA, FAKE MARKET

With the opening up of the private market in China, there is no better time to get a firm understanding of the most important tools, tips and tricks related to practice management. Aesthetic practitioners of today must also be astute business people. This unique one-day course will teach you how to harness social media to your advantage, how to market your private practice, how to expand your business and how to fight against the ever-present fake market.

VIDEO ANATOMY INJECTION WORKSHOP

This session will give you the fantastic opportunity to watch injections on a live patient alongside the dissection of a cadaver. Concentrating primarily on the face, you will be able to directly observe the underlying anatomy of the skin that is affected during injections. Always a particular popular session, the video workshop will give you a valuable insight into what is going on under the skin, and will help you to deal more effectively with complications.

COSMECEUTICS & ANTI-AGING

New to IMCAS China this year is an entire day dedicated to this relatively new field that is currently developing at lightening speed. Throughout the day you will be able to explore the science behind the cosmeceutical craze – from the fundamentals to the most recent research developments in this field. You will also learn about the appropriate products to use on different skin types and for diverse skin conditions and you will develop an understanding of the way in which cosmeceutics, nutraceuticals and cosmetic procedures can complement one another.

4

FACE & BODY SHAPING

These sessions will cover the multitude of ways in which different parts of the face and the body can be reshaped. Covering both surgical and non-surgical techniques, each session will be dedicated to a specific procedure, giving you a valuable insight into the specific characteristics of each. From abdominoplasty and fat grafting to lasers and EBDs, these sessions will give you an extensive arsenal of techniques and procedures that will no doubt be greatly appreciated by your patients.

5

INJECTABLES

The sessions dedicated to injectables will give you a well-rounded view of best practice and recent developments in these fields, enriching your learning throughout the congress. Covering a number of different body parts and a variety of treatments, from traditional toxins and fillers to injectable lipolysis, these sessions will equip you with the necessary tools to get the best results and to avoid complications. Be sure to register for the Teaching Course on combined treatment by injectables in order to get a complete insight into this topic.

6

LASERS & EBD

Picosecond ultrasonics, fractional lasers, radiofrequency, Q-switched Nd:YAG lasers, cryolipolysis, microneedling...there are a huge number of different technologies in this sphere. Learn about the most recent developments in the field and discover how to get optimal results in the treatment of scars and hyperpigmentation as well as the removal of tattoos and hair. Take the optional Teaching Course on pigmentation for additional exclusive insights into how to get the best results when using lasers to treat this common dermatological indication.

7

BLEPHAROPLASTY

As blepharoplasty is one of the most popular surgical procedures in China and around Asia, we have dedicated four hours to this important procedure. The sessions will cover both upper and lower eyelid blepharoplasty thus giving you a comprehensive overview of the latest techniques and advances to use when performing this procedure.

8

RHINOPLASTY

The rhinoplasty sessions will include insights not just into surgical rhinoplasty, but also into the use of injectables for the nose. As a surgeon, you need to take into account not just the wishes of the patient but also the tissue components, the morphology and the feasibility of a number of different invasive and non-invasive procedures. After three hours of intensive learning you will be confident when approaching even the most complex rhinoplasty procedure.

9

LIPOFILLING & STEM CELLS

It has long been said that the future of medicine will be in stem cells. Four hours of sessions will deal with lipofilling of a number of different areas of the face and the body, concentrating on the newest and most effective techniques to optimize outcomes.

CONFLICT OF INTEREST DISCLOSURE

How does IMCAS broadcast the information to its speakers?

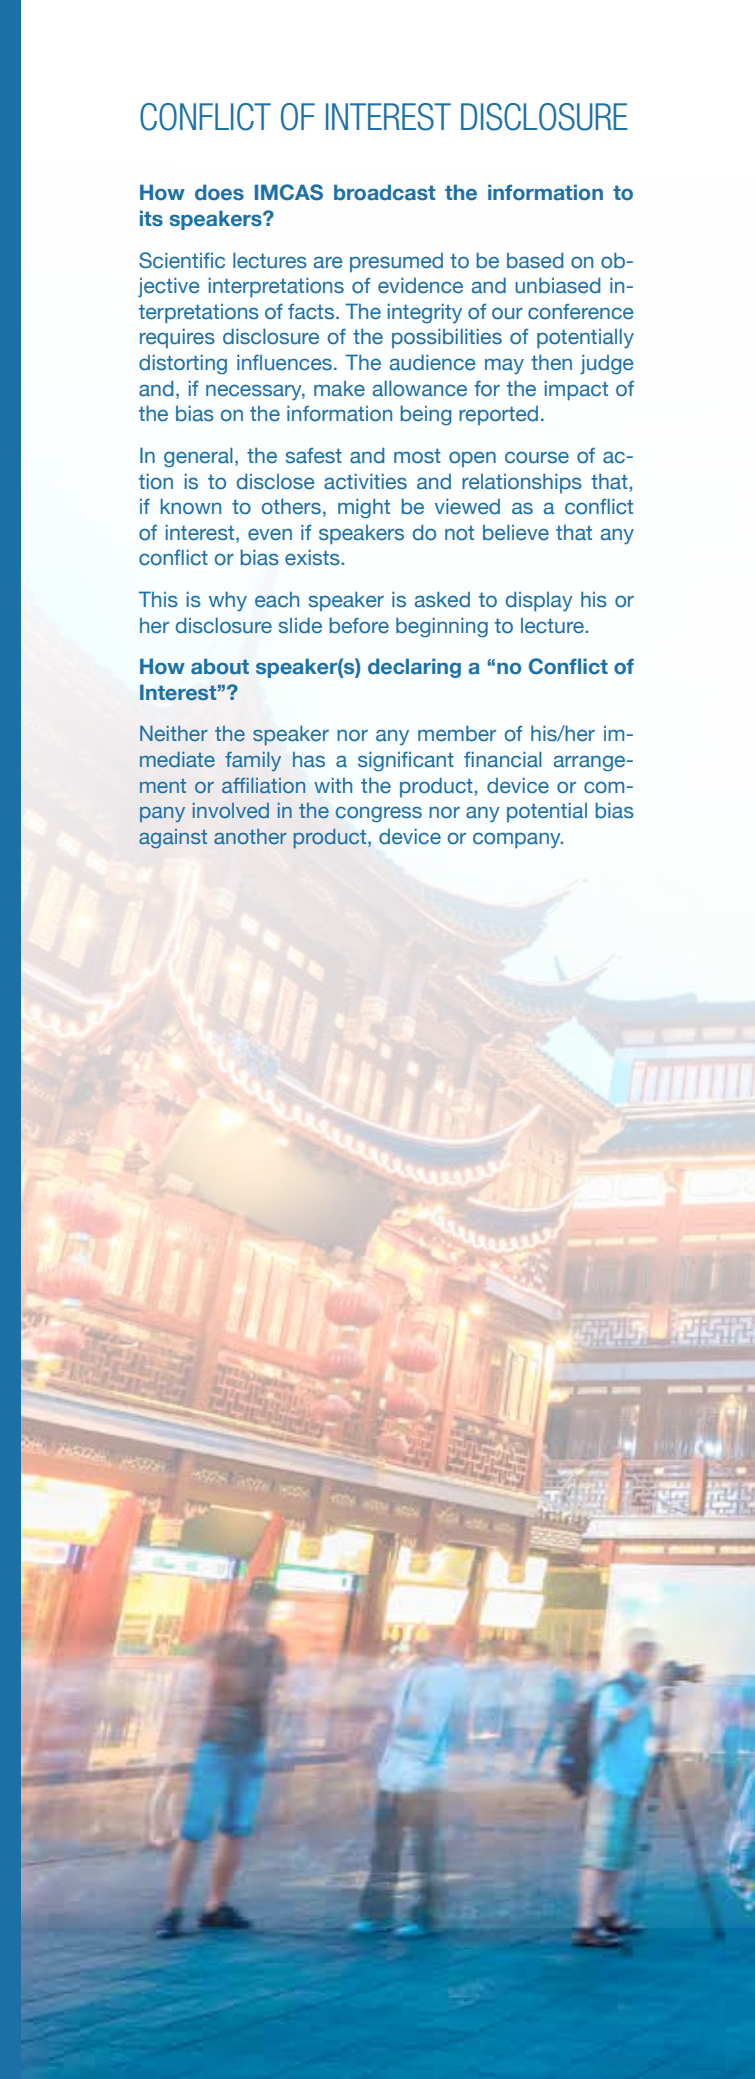

Scientific lectures are presumed to be based on objective interpretations of evidence and unbiased interpretations of facts. The integrity of our conference requires disclosure of the possibilities of potentially distorting influences. The audience may then judge and, if necessary, make allowance for the impact of the bias on the information being reported.

In general, the safest and most open course of action is to disclose activities and relationships that, if known to others, might be viewed as a conflict of interest, even if speakers do not believe that any conflict or bias exists.

This is why each speaker is asked to display his or her disclosure slide before beginning to lecture.

How about speaker(s) declaring a "no Conflict of Interest"?

Neither the speaker nor any member of his/her immediate family has a significant financial arrangement or affiliation with the product, device or company involved in the congress nor any potential bias against another product, device or company.

SESSION 1
8:30 AM
10:30 AM

ROOM 1

Laser - continuous vs fractional mode - ablative vs non ablative mode

CHAIRS: Sahar Foad GHANNAM, Yuanhong LI

- Laser - continuous vs fractional
- > Comparisons of ablative fractional CO2 lasers vs intense pulsed light (IPL) in photodamaged skin treatment
Patrick Po Han HUANG (15325/15min)
- > Fractional laser update
Zhong LU (15957/15min)
- > Treatment of atrophic scars by fractional CO2
Hui QIAN (16003/14min)
- > Preliminary clinical results of fractional CO2 laser plus topical repair agents for the treatment of photoaged skin and acne scar
Xi CHEN (16134/14min)
- Laser - ablative vs non-ablative
- > Combined therapy of non-ablative and ablative fractional lasers for atrophic acne scar
Shiou Han WANG (15736/15min)
- > Fractional non-ablative laser on skin aging and stretch marks
Yan WU (15580/15min)
- > Ablative vs non-ablative laser
Guoyu ZHOU (15594/15min)
- Questions & answers

SESSION 2
11 AM
1 PM

ROOM 1

Laser & ultra sound & RF - skin tightening

CHAIRS: Patrick Po Han HUANG, Hui QIAN

- > Updates on minimally invasive fractional radiofrequency
Xiaoxi LIN (15562/18min)
- > Application of fractional radiofrequency technology for skin tightening
Yuanhong LI (15568/18min)
- > Improving the safety and efficacy of non-ablative monopolar radiofrequency with techniques based on thermodynamics and mechanics
Shiou Han WANG (15600/18min)
- > Ultrasound in cosmetic dermatology - treating cellulite
Zhanchao ZHOU (15745/18min)
- > Noninvasive body contouring with non-thermal effect focused ultrasound
Edward Chung Jen TSENG (15939/18min)
- > The mid and low facelift effect - contrast between focused ultrasound and monopolar radiofrequency
Jun Gina FU (15751/18min)
- Questions & answers

What about the presentation abstracts?
All submitted abstracts are available for consultation online on www.imcas.com through the congress digital program along with the speaker biostatements, the session details, the exhibitor list and contact information.

PROGRAM
FRIDAY

SESSION 3
2 PM
3 PM

ROOM 1

Body shaping - injectable & laser lipolysis

CHAIRS: Klaus HOFFMANN, Patrick Po Han HUANG

- > Injectable and laser lipolysis - where are we?
Benjamin ASCHER (15958/12min)
- > Laser-assisted lipolysis technology in facial rejuvenation
Haiyan CUI (15557/12min)
- > Laser vs injection technologies
Klaus HOFFMANN (15595/12min)
- > Combined treatment in cellulite
Davi DE LACERDA (15443/12min)
- Questions & answers

SESSION 4
3 PM
4 PM

ROOM 1

Body shaping - cryolipolysis

organized with the collaboration of the Laser Center of Beijing Huangsi Cosmetic Plastic Surgery Hospital

CHAIRS: Davi DE LACERDA, Xiaoxi LIN

- > Preliminary clinical results of non-invasive cryolipolysis
Hongmei LIU (15919/17min)
- > Comparing techniques in cryolipolysis
Klaus HOFFMANN (15596/17min)
- > Cryolipolysis vs alternative method
Davi DE LACERDA (16143/17min)
- Questions & answers

Clinical dermatology - vascular

CHAIRS: David Sudarto OEIRIA, Leihong Flora XIANG

- > Efficacy and safety of DYE pulsed light on facial telangiectasia
Zhong LU (16008/16min)
- > Efficacy of intense pulsed light treatment in vascular lesions
Hui QIAN (15921/16min)
- > Updates on vascular anomalies (2013 - 2014)
Xiaoxi LIN (15920/16min)
- Questions & answers

SESSION 6
8:30 AM
10:30 AM

ROOM 2

Video upper face & brow lift

CHAIRS: Daniel DEL VECCHIO, Norbert PALLUA

- > Battle of forehead: when and how?
Peter Y C HUANG (15965/22min)
- > Unilateral and bilateral transpalpebral browpexy
Umar KHAN (15888/22min)
- > Percutaneous face-lifting: a less invasive technique for face lifting using double sided needles
Kemal Tunc TIRYAKI (15967/22min)
- > Upper facelift combined with different grafts
Xiongzhen David MU (15398/22min)
- > The role of sub-brow incision upper lid lift in Asian upper face rejuvenation
Xiaoxi LIN (16016/22min)
- Questions & answers

SESSION 7
11 AM
1 PM

ROOM 2

Video mid & lower facelift

CHAIRS: Kemal Tunc TIRYAKI, Jilong YUAN

- > Endo-lifting of the face: a percutaneous face lifting technique for mid-face and neck
Kemal Tunc TIRYAKI (15733/15min)
- > Minimally invasive mid-face surgery: resolving the stale-mate between the needle and the knife
Kemal Tunc TIRYAKI (15972/15min)
- > Mid and lower face lift - new techniques combined with PRP
Jilong YUAN (16273/15min)
- > Deep plane facelift: a reproducible technique
Florencio Quiogue LUCERO (15399/20min)
- > Surgical plane approaches according to patient
Xiongzhen David MU (15933/20min)
- > Heart-shaped face: preferred face contour for Asian
Peter Y C HUANG (15964/20min)

Questions & answers

Nota: want to further explore and discuss this topic with your peers? The practical teaching course on facelift (TC 5) is taking place on Saturday in room 2 at 5:30PM.

SESSION 8
2 PM
4 PM

ROOM 2

Video breast augmentation & mastopexy

CHAIRS: Daniel DEL VECCHIO, Jianxing SONG

- > Mastopexy augmentation simplified: a short guide to minimizing parameters related to breast and the implants - a starter's guide
Kemal Tunc TIRYAKI (16023/25min)
- > Refinements in transaxillary submuscular augmentation mammaplasty
Florencio Quiogue LUCERO (15404/25min)
- > Review of implant sizes in 164 consecutive asymmetrical augmentation mammaplasties
Umar KHAN (13516/25min)
- > Breast augmentation with mega-volume fat grafting
Jennifer Kim SONG (15758/25min)

Questions & answers

SESSION 9
4 PM
5 PM

ROOM 2

Male treatment

CHAIRS: Davi DE LACERDA, Tatjana PAVICIC

- > Update on facial injection for men
Marina LANDAU (16148/15min)
- > Update on male aesthetic treatments
Davi DE LACERDA (15411/15min)
- > Is male beauty a good thing? A personal approach for maximizing male attractiveness
Tatjana PAVICIC (15710/15min)
- Questions & answers

ROOM 3

How to settle coalition against the aesthetic fake market
CHAIRS: Benjamin ASCHER, Jianxing SONG

- > Fake market & future regulation - launch of Asian coalition against fake market
Benjamin ASCHER (15418/20min)
- > Fake injectables in China
Jianxing SONG (15976/20min)
- > Focus on the situation of fake market in China
Peter Y C HUANG (15419/20min)
- > Doctor panel discussion
Florecio Quiogue LUCERO, David Sudarto OEIRIA, Chonghyun WON
- > Industry panel discussion
Michel CHERON (Vivacy), Xin Isabella WEI (Shanghai Qisheng / Haohai), Syneron team (Syneron / Candela)

Practice management
CHAIRS: Norbert PALLUA, Zhanchao ZHOU

- > Cosmetic dermatology clinic: problems and solutions
Zhanchao ZHOU (15575/18min)
- > Business practice of self-employed cosmetic dermatologists in China mainland
Weimin SONG (15723/18min)
- > Research on cosmetic surgery in public hospitals quasi-market-oriented operation
Haiyan CUI (15577/18min)
- > How to set up and manage a hair transplant team
Wenyu WU (15740/18min)
- > Practice management in the UK
Raj ACQUILLA (15977/18min)
- > Quality counts -Yestar- private medical chain and its management
Wannian ZHENG (16257/18min)

Questions & answers

Clinic marketing & medspa
organized with the collaboration of the China Elite Club of Cosmetic Dermatology Clinic
CHAIRS: Raj ACQUILLA, Weimin SONG

- > China elite club of cosmetic dermatology clinic
Weimin SONG (15576/25min)
- > How to deal with marketing in the USA?
Daniel DEL VECCHIO (15982/20min)
- > Regulation in Germany with a plastic surgeon's point of view
Norbert PALLUA (15983/20min)
- > Regulation in Germany with a dermatologist's point of view
Tatjana PAVICIC (15985/20min)
- > Regulation in Turkey
Kemal Tunc TIRYAKI (15984/20min)
- > Regulation in Kuwait
Sahar Foad GHANNAM (16153/20min)
- > Panel discussion
Raj ACQUILLA, Daniel DEL VECCHIO, Sahar Foad GHANNAM, Norbert PALLUA, Weimin SONG, Tunc TIRYAKI

Combined treatment by injection
CHAIRS: Chonghyun WON, Yan WU

- > Combined treatment for hands
Ghislaine BEILIN (15811/16min)
- > Combined treatment by Korean new fillers
Chonghyun WON (16276/16min)
- > Layered anti-aging concept: a combination of lasering and dermal hyaluronic acid injection to improve skin quality and texture
Patrick Po Han HUANG (15324/16min)

Questions & answers

Medicine

- > Microwave device in the treatment of axillary hyperhidrosis and osmidrosis
Edward Chung Jen TSENG (15941/15min)
- > Skin resurfacing, microplasma and transdermal delivery ITED
Sahar Foad GHANNAM (16138/15min)
- > Role of HA skinbooster following fractional lasers for skin rejuvenation
Patrick Po Han HUANG (15491/15min)
- > Combined multiple fractional lasers with platelet-rich plasma (PRP) for atrophic acne scar
Shiou Han WANG (15739/15min)

Questions & answers

Video anatomy on cadaver & injection I
Benjamin ASCHER, Marina LANDAU

[Check the program of the video anatomy on cadaver & injection session on page 14.](#)

Surgery

- > Use of multiplane internal mastopexy for ptosis correction in revision augmentation mammoplasty
Umar KHAN (13515/15min)
- > Poly-tetrafluoroethylene (E-PTFE) vs autogenous costal cartilage
Steve Chuan Hsiang KAO (15698/15min)
- > Choosing nasal implants and technique adapted to each nasal implant: principle and application
Man Koon SUH (15731/15min)
- > Textured round cohesive gel silicone implants and capsular contracture - incidence and causes in a long term follow-up by a single surgeon
Umar KHAN (16009/15min)

Pigmentation
CHAIRS: Tatjana PAVICIC, Qiuning SUN

- > Except photoepilation, what can the long-pulsed alexandrite laser do?
Shiou Han WANG (15467/13min)
- > Advances in diagnosis and treatment of melasma
Wei LAI (15909/13min)
- > Q-switched laser - application in the clinical treatment of pigmentation
Hui QIAN (16005/13min)
- > UV rays, vitamin D and melasma, can we reach a perfect balance?
Sahar Foad GHANNAM (16137/13min)

Questions & answers

CAREGEN

- > New product development with Growth Factors and Biomimetic Peptides in 2015
Yongji CHUNG (16296/120min)

Mini-invasive

- > Young and natural look in precise botulinum toxin injection by understanding the facial expression anatomy
Jane Ratna Maitridewi GONDOWARDOJO (15962/15min)
- > OnabotulinumtoxinA treatment of moderate to severe glabellar lines in Chinese subjects after laser treatment: a prospective, open-label, non-comparative study
Yan WU (16124/15min)
- > Rebuilding the midface with combined treatments
Patrick J TREACY (15303/15min)
- > Management of complications from injectable fillers
Edward Chung Jen TSENG (15937/15min)
- > Lower face beautification with injectable fillers
Edward Chung Jen TSENG (15938/15min)

PROGRAM
SATURDAY

China 2015
SHANGHAI
10 • 11 • 12 APRIL

SESSION 14
11 AM
1 PM

ROOM 1

Injectables - lower face & lip & neck & décolleté

CHAIRS: Florencio Quiogue LUCERO, Xiongzheng David MU

- > Injectable filler for the overall Chinese facial design - lower face and lip
Haiyan CUI (15556/20min)
- > Total facial rejuvenation for Asian - lower face part
Peter Y C HUANG (15695/20min)
- > Jawline correction - minimal invasive technologies and selection of best filler
Tatjana PAVICIC (15430/20min)
- > Lip - overview of techniques
Marina LANDAU (15429/20min)
- > Lower face, lip, neck and décolleté - off-label use of toxin
Kyle Koo II SEO (15496/20min)
- > Fillers in lower face - jowl and marionette lines
Yong Woo LEE (16103/18min)

SESSION 15
2 PM
4 PM

ROOM 1

Video anatomy on cadaver & injection II

CHAIRS: Benjamin ASCHER, Yuanhong LI

Check the program of the video anatomy on cadaver & injection session on page 14.

SESSION 16
4:30 PM
5:30 PM

ROOM 1

Filler injection complications I

CHAIRS: Davi DE LACERDA, Patrick Po Han HUANG

- > Preventing and managing filler complications
Davi DE LACERDA (15686/15min)
- > Common complications in China
Peter Y C HUANG (15696/12min)
- > Pathophysiology of visual loss after filler injection
Yong Woo LEE (16186/12min)

Questions & answers

SESSION 17
5:30 PM
7 PM

ROOM 1

Filler injection complications II

CHAIRS: Benjamin ASCHER, Ik Soo KOH

- > Filler complication - vascular obstruction - after filler injection
Ik Soo KOH (15699/22min)
- > Filler complications and prevention
Kyle Koo II SEO (15431/22min)
- > Complications and management of dermal fillers
Patrick J TREACY (15302/22min)

Questions & answers

SESSION 18
8:30 AM
10:30 AM

ROOM 2

Blepharoplasty

CHAIRS: Florencio Quiogue LUCERO, Jianxing SONG

- > Simpler technique of Asian blepharoplasty
Florencio Quiogue LUCERO (15449/25min)
- > Dynamics vs static supratarsal crease appearance after double eyelid surgery
Xiaoxi LIN (15931/25min)
- > Dynamic upper blepharoplasty with small incision
Lumin SI (16288/25min)
- > Upper lid blepharoplasty with canthopexy
Xiongzheng David MU (16036/25min)

Questions & answers

SESSION 19
11 AM
1 PM

ROOM 2

Eyelid rejuvenation - medical approach

CHAIRS: Ik Soo KOH, David Sudarto OEIRIA

- > Peri-orbital beautification - 6 point strategy
Raj ACQUILLA (15433/22min)
- > Fillers - periocular injection technology
Jianxing SONG (15579/22min)
- > Periorbital rejuvenation and enhancement with a combination of muscle relaxation and revolumization
David Sudarto OEIRIA (15960/22min)
- > Smiling eye roll formation with filler
Ik Soo KOH (16040/22min)
- > Rejuvenation of the eyelid area
Davi DE LACERDA (16041/22min)

Questions & answers

SESSION 20
2 PM
4 PM

ROOM 2

Rhinoplasty - surgery

CHAIRS: Xiongzheng David MU, Bong Il RHO

- > How to refine the nasal tip: the differences between western and oriental perception
Steve Chuan Hsiang KAO (15455/20min)
- > New technique of the nasal tip plasty: hybrid septal extension graft
Man Koon SUH (15459/20min)
- > Asian nasal augmentation of the tip with E-PTFE or/and cartilage
Xiaoxi LIN (15565/20min)
- > Nose suspensions: breaking the dogmas!
Kemal Tunc TIRYAKI (15734/20min)
- > Lateral osteotomy of Asian broad nose for beginners in rhinoplasty
Bong Il RHO (15712/20min)

Questions & answers

SESSION 21
4:30 PM
5:30 PM

ROOM 2

Rhinoplasty - injection

CHAIRS: Ghislaine BEILIN, Jun Gina FU

- > Rhinoplasty by injections - Asian approach
Yong Woo LEE (16160/16min)
- > Injection rhino-modulation - 8 point technique using BTX-A & HA
Raj ACQUILLA (15461/16min)
- > Superficial vs deep approach
Ghislaine BEILIN (16110/16min)

1-DAY CLASS
COSMECEUTICALS
& ANTI-AGING
8:30 AM
5:30 PM
ROOM 3

1 Day Class Cosmeceuticals & anti-aging

The IMCAS China 2015 Cosmeceuticals

Explore the science behind this significant new trend during this innovative one-day class!

on exactly
Saturday, April 11 2015
8:30 AM - 5:30 PM • Room 3

IMCAS China SHANGHAI
10 - 12 APRIL 2015 KERRY HOTEL PUDONG
More info at www.imcas.com

Objectives

- Learn about cosmeceuticals through high level, quality, evidence-based content
- Explore the science, practical clinical studies and treatment options in this sphere
- Study business development opportunities and legal issues in the cosmeceutical field

SESSION 23
9:30 AM
10:30 AM

ROOM 4

Peeling

organized with the collaboration of the Dermatology Department of the First Hospital of China Medical University

CHAIRS: Marina LANDAU, Yuanhong LI

- > Application and risk control of AHA peels in the treatment of melasma
Yuanhong LI (15810/12min)
- > Applications and complication of AHA in treating acne by peeling
Tianhua XU (16172/12min)
- > Combination therapy of chemical peeling and mechanical peeling in treating melasma
Yu DENG (16174/12min)

Questions & answers

SYMPOSIUM 2
11 AM
12 PM
ROOM 4

Laboratoires Vivacy - Stylage®, a new range of innovative monophasic hyaluronic acid-based dermal fillers

- > Introduction & speaker announcement - presentation of Laboratoires Vivacy
Vera TUAL (16195/10min)
- > Presentation of Stylage® range - IPN-like technology & product physico-chemical properties
Denis COUCHOUREL (16197/20min)
- > Advanced injection techniques with Stylage® I
Ghislaine BEILIN (16199/15min)
- > Focus on Stylage® I clinical results obtained in China
Jilong YUAN (16200/15min)

Questions & answers

SESSION 24
12 PM
1 PM
ROOM 4

Live demonstration: lasers & EBD

CHAIR: Yuanhong LI

- > What's new in laser in china?
Yuanhong LI (16271/15min)
- > Live demonstration - Fotona - SP Dynamis - laser
Ivona IGERC (15980/20min)
- > Video demonstration - Syneron / Candela - Velashape III
Weiming SONG (16173/10min)
- > Video demonstration - Syneron / Candela - CO2RE
Jun Gina FU (16286/15min)

Organisation:
Successive 20-min live/video patient treatments; the demonstrations are live transmitted from a nearby treatment room; chairmen and the audience are in direct contact with the expert performing the demo.

SESSION 22
8:30 AM
9:30 AM
ROOM 4

Peeling

organized with the collaboration of the International Peeling Society

CHAIRS: Marina LANDAU, Yuanhong LI

- > What's new in chemical peels? Combinations and treatment regime; focus on pigmentation treatment
Tatjana PAVICIC (15708/16min)
- > Why and when to peel dark skin
Sahar Foad GHANNAM (16175/16min)
- > Peeling for Caucasian skin and non Caucasian skin
Marina LANDAU (15492/16min)

Questions & answers

One-day class session Cosmeceuticals & Anti-aging

Program & Experts

8:30 am to 10:30 am - Fundamentals: skin aging

CHAIRS: Hertsel ADHOUTE, Pin Chi CHIU

- > Evidence-based anti-aging cosmeceuticals • **Pin Chi CHIU**
- > What are «true» cosmeceuticals for medical practice - the truth behind peptides • **Pin Chi CHIU**
- > Anti-aging ingredients in cosmetics - what's evidence based? • **Tatjana PAVICIC**
- > The concept and implementation of holistic integrated medical cosmetology • **Linchao SUN**
- > What physicians should know about cosmeceutical preservatives • **Dino TSAI**
- > Biophysical measurements in aged skin: possibilities and limitations • **Martina J KERSCHER**
- > Roundtable - fundamentals: what's new? • **Hertsel ADHOUTE, Pin Chi CHIU, Tatjana PAVICIC, Linchao SUN, Dino TSAI**

11:00 am to 12:00 pm - R & D: aging face & body

with the collaboration of the Dermatology Department of the First Hospital of Beijing University
CHAIRS: Hertsel ADHOUTE, Yan WU

- > Integration of medical skin care: 1565 fractional laser combined with antioxidant skin care in clinical research • **Weimin SONG**
- > Are paraben really guilty as charged? • **Dino TSAI**
- > Current trends in moisturizers • **Shiou Han WANG**
- > Choosing the proper body cosmeceuticals • **Martina J KERSCHER**

12:00 pm to 1:00 pm - Botanicals & Traditional medicine

with the collaboration of the Dermatology Department of the First Hospital of Beijing University
CHAIRS: Sahar Foad GHANNAM, Yan WU

- > Botanicals: what every dermatologist should know? • **Sahar Foad GHANNAM**
- > Chinese plants and cosmeceutics • **Yan WU**
- > Chinese traditional medicine and cosmeceuticals • **Ping SONG**

2:00 pm to 3:00 pm - Skin Barrier

with the collaboration of the Dermatology Department of Shanghai Changzheng Hospital
CHAIRS: Hertsel ADHOUTE, Yuanjie ZHU

- > Cosmeceuticals in skin barrier • **Leihong Flora XIANG**
- > Effect of cosmeceuticals on allergic skin • **Yuanjie ZHU**
- > Skin care products used after laser surgery to repair the skin barrier • **Wei LAI**
- > Evidence-based anti-acne cosmeceuticals • **Pin Chi CHIU**

3:00 pm to 4:00 pm - Skin Whitening

with the collaboration of the Dermatology Department of Beijing Union Medical College Hospital
CHAIRS: Hertsel ADHOUTE, Qiuning SUN

- > The objective evaluation of whitening agents - beginning from compound tranexamic acid • **Qiuning SUN**
- > Cosmeceuticals in whitening • **Leihong Flora XIANG**
- > Skin whitening and corneotherapy • **Pin Chi CHIU**

4:30 pm to 5:30 pm - Skin Whitening & Cosmeceutical skin care new challenges

CHAIRS: Zhong LU, Qiuning SUN

- > Prevention of postinflammatory hyperpigmentation (PIH) with skin care products after laser therapy • **Zhong LU**
- > Cosmeceuticals against hyperpigmentations • **Tatjana PAVICIC**
- > New French standards in skin whitening as well as other functional and cosmetic dermatology • **Harry ARAMPATZIS**
- > Panel Discussion - how to manage and to adapt the market in respecting the legacy and regulations • **Hertsel ADHOUTE, Liting TIAN, Iris WONG**

Objectives

- Learn about cosmeceuticals through high level, quality, evidence-based content and catch the new trends

- Explore the science, practical clinical studies and treatment options in this sphere

- Study business development opportunities and legal issues in the cosmeceutical field

CLASS COORDINATORS

Hertsel ADHOUTE, PhD-Research, FRANCE
Pin Chi CHIU, Dermatologist, CHINESE TAIPEI

CLASS CHAIRS

Martina J KERSCHER, Dermatologist, GERMANY
Zhong LU, Dermatologist, CHINA
Qiuning SUN, Dermatologist, CHINA
Yan WU, Dermatologist, CHINA
Yuanjie ZHU, Dermatologist, CHINA

FACULTY (updated list on imcas.com)

Sahar Foad GHANNAM, Dermatologist, KUWAIT
Wei LAI, Dermatologist, CHINA

IMCAS GALA DINNER
SATURDAY, 11TH OF APRIL – 8:00PM
T8 RESTAURANT – XINTIANDI DISTRICT

Industry guest lectures

- > Fotona - 4D non-invasive laser face lifting
Zdenko VIZINTIN (16229/15min)
- > Newpong - Kitson :benefit of complex treatment by HIFU face lifting with thread lifting and importance or transducer for HIFU system development
Jay LEE (16230/30min)
- > Jack's clinic- the Jack's e-fue machine
Yitong Jimmy ZHAO (16234/15min)
- > Shammah: innovative long term filler by hyaluronic acid - skin plus Hyal®: safe & reversible long term filler
Jun Mo Kim (16237/15min)
- > Huamei: application of chinese wood structure principal on rhinoplasty
Weiguo XIE (16290/15min)

Medicine

- > Cosmetic treatment of challenging PWS with non-surgical and surgical approaches
Xiaoxi LIN (15564/15min)
- > Complications of laser treatments
Hui QIAN (16004/30min)
- > Signalling pathways are crucial both in wound healing and aging
Xanya SOFRA WEISS (15910/15min)

SESSION 25
8:30 AM
10:30 AM

ROOM 1

Video lipofilling - breast & buttock

CHAIRS: Daniel DEL VECCHIO, Jianxing SONG

- > The scope of fat transplantation to the breast - past, present and future trends
Daniel DEL VECCHIO (16064/12min)
- > A new system for large volume fat transplantation - high workflow and efficiency
Daniel DEL VECCHIO (15688/12min)
- > Avoiding complications with large volume fat transplantation
Daniel DEL VECCHIO (16063/12min)
- > The role of stem cells and large land fat transplantation - a 10 year experience
Daniel DEL VECCHIO (15481/12min)
- > Breast augmentation with the BRAVA system
Jianxing SONG (16066/30min)
- > Latest research on fat grafting and its clinical relevance
Norbert PALLUA (15971/25min)

Questions & answers

SESSION 26

1 PM

ROOM 1

Video lipofilling - face

CHAIRS: Norbert PALLUA, Jianxing SONG

- > Science and safety of fat grafting: the risk of tumorigenesis
Norbert PALLUA (15705/20min)
- > Mid face fat graft and injections
Jianxing SONG (15947/20min)
- > Stem cell enriched fat injections for facial rejuvenation: a new weapon in plastic surgery - what works and what doesn't work!
Kemal Tunc TIRYAKI (15480/20min)
- > Fat vs filler - pro & con
Benjamin ASCHER (16062/20min)
- > Combined treatment of lipofilling and skin tightening in facial rejuvenation
Dongming SONG (16285/15min)

Questions & answers

SESSION 27
1 PM
2 PM

ROOM 1

Stem cells & regenerative medicine

CHAIRS: Ghislaine BEILIN, Jianxing SONG

- > Anti-aging: the Swiss Cell Therapy from bio DNA marine complex
Ghislaine BEILIN (16140/12min)
- > Clinical cases that adipose stem cell works
Florencio Quiogue LUCERO (15469/12min)
- > Variety of clinical applications of adipose derived stem cells
Bong Il RHO (15473/12min)
- > The evolution of stem cell enriched fat injections in cosmetic and reconstructive breast surgery - five years clinical experience
Kemal Tunc TIRYAKI (15735/12min)

Questions & answers

PROGRAM
SUNDAY

SESSION 28
8:30 AM
9:30 AM

ROOM 2

Threads - suspending devices

CHAIRS: Yong Woo LEE, Lumin SI

- > Threads lift in facial rejuvenation
Peter Y C HUANG (15697/16min)
- > Absorbable polydioxanone (PDO) thread lifting in consideration to various facial contour
Jennifer Kim SONG (15759/16min)
- > The new trend of facelift using various threads
Bong Il RHO (15601/16min)

Questions & answers

SESSION 30
11 AM
12 PM

ROOM 2

Abdominoplasty & liposuction

CHAIRS: Umar KHAN, Xiongzheng David MU

- > Avoid the complications
Daniel DEL VECCHIO (16170/15min)
- > Inverse abdominoplasty with false rectus folds design: a beautiful deformation!
Kemal Tunc TIRYAKI (15489/15min)
- > Blood supply of abdominal wall and use of angiosomal concept in Saldanha lipoabdominoplasty
Umar KHAN (15889/15min)

Questions & answers

SESSION 31
12 PM
2 PM

ROOM 2

Contributing lectures

CHAIRS: Jun Gina FU, Patrick J TREACY

- > The expand application of 595nm pulsed dye laser besides PWS
Jun Gina FU (16260/12min)
- > The hypopigmented effects of oral glutathione supplement on the skin
Montree UDOMPATAIKUL (15915/12min)
- > A new approach to anti-age correction of lips and perioral area in women of slavic phenotype: results of observational study
Maria ROMANES SHIRSHAKOVA (15264/12min)
- > A new LED device used for photodynamic therapy in treatment of moderate to severe acne vulgaris
Yiyun DONG (15763/12min)
- > The body's repair mechanisms as the basis for anti-aging
Xanya SOFRA WEISS (15911/12min)

Questions & answers

Built from a call for abstracts submissions, these sessions gather lectures from physicians from all over the world attending our conference. Updated topics will be covered during each short presentation, allowing lecturers to share their experiences with the audience.

SESSION 32
8:30 AM
9:30 AM

ROOM 3

Masseter injections

CHAIRS: Benjamin ASCHER, Xiongzheng David MU

- > Jaw - principle of botulinum toxin injection especially orientals
Ik Soo KOH (16181/15min)
- > Anatomical basis to optimize injections
Benjamin ASCHER (16258/15min)
- > Injections adapted to the Chinese face
Xiongzheng David MU (16183/15min)

Round table: problems and limits in masseter injections

SESSION 33
11 AM
1 PM
ROOM 3

Clinical dermatology - photodynamic therapy (PDT)

CHAIRS: Leihong Flora XIANG, Guoyu ZHOU

- > Latest advances in PDT clinical applications
Leihong Flora XIANG (15608/22min)
- > ALA-PDT in acne
Zhanchao ZHOU (15744/22min)
- > PDT for port wine stains
Guoyu ZHOU (15593/22min)
- > Histological changes and long term result of facial port-wine stain - 18 years after photodynamic therapy
Xiaoxi LIN (15563/22min)

Questions & answers

SESSION 34
1 PM
2 PM
ROOM 3

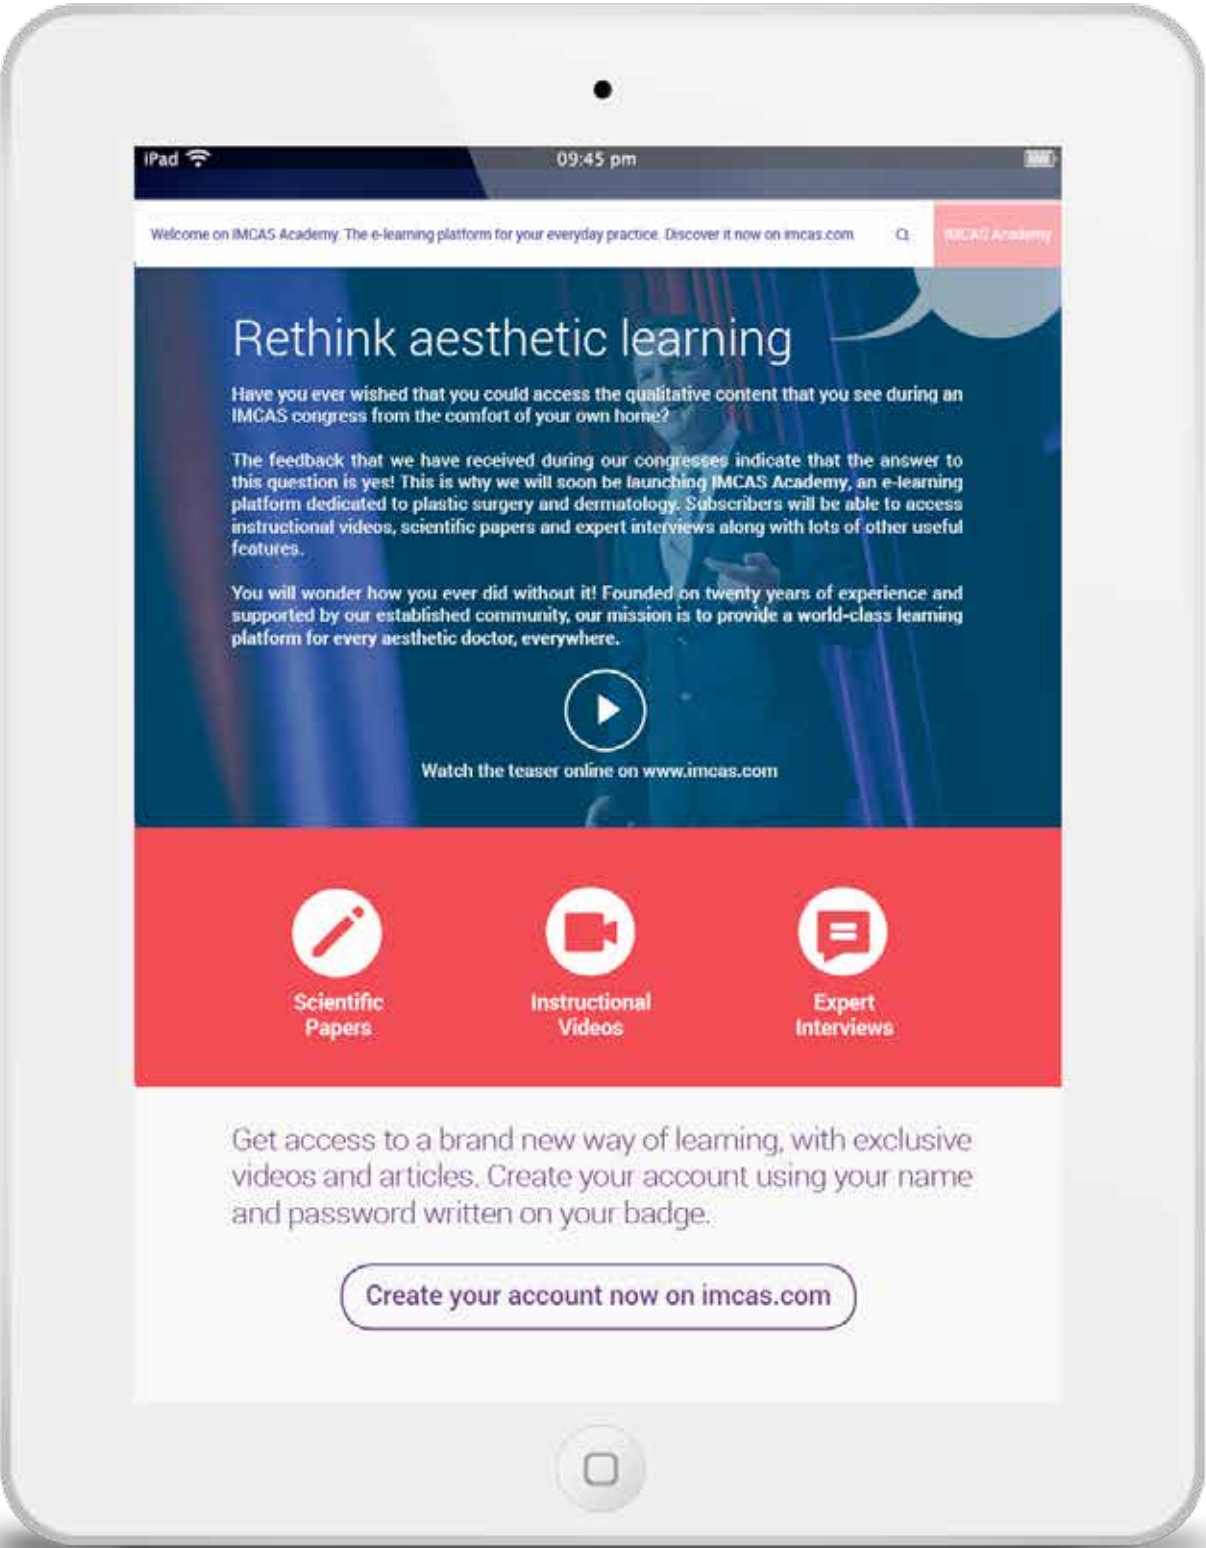

New products & devices

CHAIRS: Davi DE LACERDA, Weimin SONG

This session presents a range of new products and devices. The aim is to expose the technology and fundamentals of the product/device itself rather than the clinical application on patients.

WELCOME ON IMCAS ACADEMY.

THE E-LEARNING PLATFORM FOR YOUR EVERYDAY PRACTICE.

TEACHING COURSES

TEACHING COURSE 1 Laser pigmentation

Friday from 5.30 to 7 PM ■ Room 1

COURSE DIRECTORS

Marina LANDAU & Leihong Flora XIANG

COURSE OBJECTIVES

by attending this TC, the attendee should be able to:

- Recognize laser applications to optimize rejuvenative outcomes
- Identify the indications and limitations of latest laser procedures
- Review latest trends in treatments for hyperpigmentation
- Choose the most appropriate technical devices for treating pigmented lesions

Marina LANDAU
Dermatologist
ISRAEL

Leihong Flora XIANG
Dermatologist
CHINA

Rattapon THUANGTONG
Dermatologist
THAILAND

Wenyu WU
Dermatologist
CHINA

5.32 pm 18min
Pigmentation fundamentals
Leihong Flora XIANG Lecture 16078

5.50 pm 18min
Pigmentation - classification and treatment techniques
Marina LANDAU Lecture 16201

6.08 pm 12min
The new trend of melasma therapy with laser
Yuanhong LI Lecture 15567

6.20 pm 12min
Treatment of melasma with multiple pigment and vascular lasers
Shiou Han WANG Lecture 15738

6.32 pm 12min
Fighting PIH (post-inflammatory hyperpigmentation): strategy and choice
Zhanchao ZHOU Lecture 15746

6.44 pm 12min
Syndrome differentiation and treatment of periorbital pigmentation in Asians
Jun Gina FU Lecture 15750

6.56 pm 4min
Questions & answers

TEACHING COURSE 2 Hair transplant

Friday from 5.30 to 7 PM ■ Room 2

COURSE DIRECTORS

Rattapon THUANGTONG & Wenyu WU

COURSE OBJECTIVES

by attending this TC, the attendee should be able to:

- Identify proper patient selection
- Recognize the technique for scalp, facial and hair transplantation
- Use up to date evidence-based information to assess hair loss
- Treat and counsel patients with alopecia appropriately

5.32 pm 20min
Hair transplantation in Chinese AGA (androgenetic alopecia) males
Wenyu WU Lecture 15554

5.52 pm 20min
Robotic hair transplantation in Asian - what is good and what is not good, how to maximize the speed
Rattapon THUANGTONG Lecture 15416

6.12 pm 12min
Hair loss: new technology with synthetic hair
Ghislaine BEILIN Lecture 16139

6.24 pm 12min
Mesenchymal stem cell therapy for hair loss disease
Chonghyun WON Lecture 16000

6.36 pm 12min
Combination therapy of non ablative fractional laser with a herbal serum in hair growth
Yuanhong LI Lecture 15566

6.48 pm 12min
Guidelines for medical treatments for female androgenetic alopecia
Patrick J TREACY Lecture 15304

TEACHING COURSE 3 Acne and scar

Friday from 5.30 to 7 PM ■ Room 3

COURSE DIRECTORS

Klaus HOFFMANN & Wei LAI

COURSE OBJECTIVES

by attending this TC, the attendee should be able to:

- Identify new and emerging treatments for a wide variety of skin diseases and cosmetic conditions
- Examine the safety and efficacy of new and emerging dermatological therapies for acne scars

Klaus HOFFMANN
Dermatologist
GERMANY

Wei LAI
Dermatologist
CHINA

5.32 pm 15min
Update on laser treatment of scar
Klaus HOFFMANN Lecture 15691

5.47 pm 15min
Advances in diagnosis and treatment of rosacea acne
Wei LAI Lecture 15908

6.02 pm 12min
Vacuum-assisted intense pulsed light in the treatment of acne
Edward Chung Jen TSENG Lecture 15940

6.14 pm 12min
Efficacy and safety of Q-switched fractional Nd:YAG (1064nm) laser in treating melasma
Zhong LU Lecture 15956

6.26 pm 12min
The treatment of acne and acne scars: from skin rejuvenation to CO2 fractional laser
Weimin SONG Lecture 15724

6.38 pm 12min
Management of scars with 5-FU through injection and laser-assisted delivery
Patrick Po Han HUANG Lecture 15760

6.50 pm 10min
Questions & answers

TEACHING COURSE 4 Combined treatment by injections

Saturday from 5.30 to 7 PM ■ Room 3

COURSE DIRECTORS

Haiyan CUI & Tatjana PAVICIC

COURSE OBJECTIVES

by attending this TC, the attendee should be able to:

- Obtain natural results using botulinum toxin and hyaluronic acid as combined treatments
- Identify the injection points for botulinum toxin and fillers

Haiyan CUI
Plastic Surgeon
CHINA

Tatjana PAVICIC
Dermatologist
GERMANY

5.32 pm 20min
Filler injections combined with laser and toxins for forehead area
Haiyan CUI Lecture 15990

5.52 pm 20min
Hand rejuvenation with fillers - anatomy based pro and contras of different injection techniques
Tatjana PAVICIC Lecture 15444

6.12 pm 12min
Combined therapy using injectables, radio frequency & minimal invasive surgery for lower face and neck
Benjamin ASCHER Lecture 15442

6.24 pm 12min
Contouring the chin and jawline using combination therapy
Raj ACQUILLA Lecture 15441

6.36 pm 12min
3D lifting with toxin and filler combined treatment for face
Kyle Koo II SEO Lecture 15440

6.48 pm 12min
Questions & answers

TEACHING COURSE 5
Facelift

Saturday from 5.30 to 7 PM ■ Room 2

COURSE DIRECTORS

Xiaoxi LIN & Norbert PALLUA

COURSE OBJECTIVES

by attending this TC, the attendee should be able to:

- Compare and contrast the strengths and weaknesses of the commonly advocated facelift techniques
- Explain clinically relevant anatomy important to surgical technique and avoiding complications
- Evaluate treatment of the mid-face and review controversies in mid-face rejuvenation
- Learn how to select patients appropriate for a midace lift

Xiaoxi LIN
Plastic Surgeon
CHINA

Norbert PALLUA
Plastic Surgeon
GERMANY

5.32 pm 20min
Differences between Asian and Caucasian facial rejuvenation
Xiaoxi LIN Lecture 15917

5.52 pm 20min
The liposctructuring technique vs the micro-fat-grafting technique for facelift
Norbert PALLUA Lecture 16048

6.12 pm 15min
Intraoral incision removal of mandibular angle, lower cheekbone surgery to change the face shape
Jilong YUAN Lecture 16272

6.27 pm 15min
Face contouring with different techniques
Xiongzheng David MU Lecture 15742

6.42 pm 15min
Facelift with and without volumetry
Benjamin ASCHER Lecture 16050

6.57 pm 3min
Questions & answers

E-PAPERS

E-Papers are displayed at the IMCAS Multimedia Center during the entire conference period and are accessible by attendees at any time.

Abstracts of the below list are viewable on www.imcas.com.
Updated full list is available on www.imcas.com.

The sellion level in Korean with dorsal augmentation rhinoplasty, comparison with common sellion level

Hyo Jin JEON
E-paper n°16263

Simplified strategies in corrective rhinoplasty for deviated nose

Dong Woo JUNG
E-paper n°16264

Gain without pain: effortless exercise

Xanya SOFRA WEISS
E-paper n°15912

Voltage driven methods of stem cell administration – no-needles application with additional benefits

Xanya SOFRA WEISS
E-paper n°15913

COURSE DIRECTOR

本杰明·艾仕
Benjamin ASCHER
整形外科医生 Plastic surgeon
法国 France

Benjamin Ascher, MD, is a board certified Plastic Surgeon, lecturer and clinical assistant, from Paris Academy, and chairman and head of the Clinique of Aesthetic Surgery IENA in Paris – France.

He is a member of the French, American, and International Societies of Plastic, Reconstructive and Aesthetic Surgery (SOFCPRE, SOFCEP, ASPS, ISAPS).

He is section editor of the Aesthetic Plastic Surgery Journal and member of the Editorial Board for the Journal of Cosmetic and Laser Therapy, as well as author of 130 original articles published in referenced journals, and review articles in updated aesthetic surgery, non surgical procedures and recently, editor of «Injections treatments in Cosmetic Surgery» Informa, 2008.

He is the founder and scientific director of IMCAS congresses (Paris, Shanghai, Bali, and Goa), world leader in medical conferences dealing with the interface between Plastic Surgery, Cosmetic Dermatology, and Aesthetic Medicine.

He is also co-director of the first French & European university diploma, dedicated to « injectables, face & body fillers and all associated techniques », University of Paris V- Paris XII, Hopital Tarnier, France.

He is working extensively on research and clinical studies on many surgical procedures as well as Cosmetic Botulinum Toxin, Fillers, Facial & Body Volumetric Implants, Lipofilling, Suspending Threads, Face Lifts, and Body Contouring energy devices.

HONORARY PRESIDENTS

朱学骏
Xuejun ZHU
皮肤科医师 Dermatologist
中国 China

朱学骏，北京大学第一医院皮肤科终身教授，主任医师，博士生导师。1965年毕业于北京医学院，之后一直就职于北京大学第一医院皮肤科，1980。1。-1982。5美国纽约大学医学院作访问学者。曾任北京大学皮肤性病学系主任，北京大学皮肤性病防治中心主任，北京大学第一医院副院长，中国医师协会皮肤科学分会会长、中华医学学会皮肤性病学会副主委。是国家药典委员会委员。美国及德国皮肤科协会国际名誉委员。

ZHU XUEJUN,M.D. is the full time pefessor, Department Of Dermatology, Peking University First Hospital. Dr.Zhu was Graduated from Beijing Medical University in 1965. He has been working in the University hospital since then. He used to be the vice director of the hospital(1991-1999), Chairman of Department of Dermatology(1998-2006). Director of Peking University Skin and STD Center and Dean of faculty, Department of Dermatology, Peking University(2001-2011).

Dr. Zhu was the President of China Dermatologist Association (CDA) from 2008-2011 and the Vice chairman, Dermatology Society of Chinese Medical Association(CMA) from 2006-2009. He is the Member of National Pharmacopoeia committee since 2001.

Dr. Zhu Has Published over 400 papers in medical journals and 15 books.

整形外科医生 Plastic surgeon
中国 China

Xiongzheng Mu, a plastic surgeon born in Shanghai in May, 1961.

He has been practicing in clinic both reconstructive surgery and aesthetic surgery in past 26 years since 1984. He got his fellowship in Paris, France with Dr Daniel Marchac and in California, US with Dr Bryant Toth in 1999.

He is now working in Shanghai Huashan hospital, Fudan University as Professor and keep professional position international such as chairman of APCA (Asia craniofacial), council of ISCFS (International,Craniofacial), and so on.

林晓曦
Xiaoxi LIN
整形外科医生 Plastic surgeon
中国 China

Dr. Xiaoxi LIN is a professor of Department of Plastic and Reconstructive Surgery and vice-director of the Cosmetic Laser Center at Shanghai Ninth People's Hospital, School of Medicine, Jiaotong University, which is one of the two leading Plastic Surgery Centers in China.

He was a visiting doctor of Plastic Surgery at Yale New Haven Hospital, Boston Children Hospital and NYU Medical Center. Dr. Lin is one of the renown doctors in research and treatment of vascular anomalies and facial skin rejuvenation in China, serving as the chief of 24 scientific projects and the author of 133 scientific papers and 27 book chapters in his speciality. He once gave the invited or keynote speeches in the Annual meeting of Japanese, Scandinavian, American and Israel Society of Plastic Surgery and many international conferences. As the first contributors, Dr. Lin received several awards in China.

He was awarded as the National Outstanding Scholar of New Century, and 12 scientific awards, such as First prize of Scientific and Technological Advancement Award of Chinese Ministry of Education, Chinese medical science and technology prize, Shanghai Scientific and Technological Advancement Award (2004, 2007,2011).

Dr. Lin is President elect of Shanghai Society of Aesthetic Medicine and the peer reviewer of Plastic and Reconstructive Surgery. He also served on the editorial boards of six major Chinese journal of Plastic Surgery or Surgery.

SCIENTIFIC SECRETARIES

Hertsel ADHOUTE
博士 / 科研人员 PhD - Research
法国 France

Dr. Hertsel has widely contributed to the international dermatological sector for more than 30 years. He created his own research laboratory, in Hôtel Dieu hospital in Marseille and then in Saint-Louis hospital in Paris, which was considered to be the forerunner of new skin care evaluation methods.

His main publications revolve around skin research, aging, light penetration, UV interactions mechanical properties of the skin.

丹尼尔·戴伟桥

SCIENTIFIC COMMITTEE

黃柏翰
Patrick Po Han HUANG
皮肤科医师 Dermatologist
台湾 Chinese Taipei

Po-Han Huang, MD has served as an Executive Director of Board of Trustees and the Vice-Chair of Committee of Aesthetic Dermatology, Chinese Taipeiese Dermatological Association since 2012. He is also appointed as the surveyor of dermatology residency-training programs and aesthetic institutes in Chinese Taipei. He was appointed as the Chair of Department of Dermatology at Chang Gung Memorial Hospital-Kaohsiung from 2002 to 2004. He has published 20 peer-reviewed articles in SCI journals and received 100 citations in the top 5 publications.

Dr. Huang is a recognized expert on aesthetic dermatology, and he conducted several clinical trials. He established the Chinese Taipei Dermatology and Aesthetic Conference in 2013 and was appointed as the Chair of the Organizing Committee in 2013 and 2014.

He has been invited to speak at several international meetings, including the Asia Congress of Dermatology, Hong Kong Association of Specialists in Dermatology, Annual Meeting of Chinese Dermatologist Association, National Congress of Cosmetic Dermatology (China) and International Congress of Cosmetic Dermatology.

Currently, he is working on collaboration with biomedical engineering for imaging evaluation. He serves a reviewer for Journal of Cosmetic Dermatology and International Journal of Dermatology. In 2009, Dr. Huang was voted as «Good Doctor in Chinese Taipei» in Business Weekly.

Tatjana PAVICIC
皮肤科医师 Dermatologist
德国 Germany

Dr Tatjana Pavicic is a board certified dermatologist specializing in cosmetic surgery and aesthetic services in Munich. She became an internationally respected speaker and trainer on advanced cosmetic dermatology and surgery.

Dr. Pavicic is member of various national and international dermatologic and cosmetic societies. She is the president of the Dermocosmetic group in the Society of Dermopharmacy, General Secretary of the International Peeling Society (IPS) and Board member of International Society of Dermatologic Surgery (ISDS).

Dr. Pavicic has extensively published in international journals both in the dermatological and the aesthetic fields since 2001. One of her main areas of research is filler complications. She has been involved in multiple studies with different molecules and compounds (botulinum toxin, dermal filler, native hyaluronic acid, dermocosmetics, etc.). Additionally, Dr Pavicic followed a training in medical management and marketing at Shanghai and WHU in Vallendar.

IMCAS.COM IS HAVING A FACELIFT!

We are thrilled to unveil our brand new website to all of our IMCAS Annual World Congress attendees.

Bringing you a sleek modern design along with an intuitive navigation experience and increased functionality, we are certain that you will enjoy exploring everything that the new and improved imcas.com has to offer you.

IMCAS ACADEMY

Our congresses may only happen a few times a year but we know that learning is a continuous process so we have developed IMCAS Academy to allow you to access all of the quality scientific content that you find at an IMCAS congress anytime, anywhere.

Our new e-learning platform has been built with user-friendliness and functionality in mind. Log in and get access to exclusive videos, scientific articles, aesthetic journals and more: let IMCAS be your encyclopedia of aesthetic medicine.

At this congress alone we are filming over 70% of the scientific sessions. These will be uploaded onto the IMCAS Academy e-learning platform throughout the year offering you the chance to experience your favourite lectures again and again.

UP-TO-DATE
Content is updated regularly to ensure that you stay abreast of the latest advances in your field.

COMPATIBLE
Desktop, laptop, tablet or smartphone - imcas.com will now function seamlessly on all of your compatible electronic devices.

SOCIAL
Comment on content and share your favourite videos, articles and more with your colleagues and peers around the world.

EDUCATIONAL
Learn all year round via the IMCAS Academy e-learning platform.

INTUITIVE
Find the information you want when you want it - the easy navigation system is instinctive and responsive.

IMCAS COMMUNITY

IMCAS Community is your new online meeting place.

Join a comprehensive network of plastic surgeons, cosmetic dermatologists and aesthetic practitioners around the world. Exchange new research findings, engage in scientific debates, share great educational content and comment on the latest advances in your field along with the best in your profession.

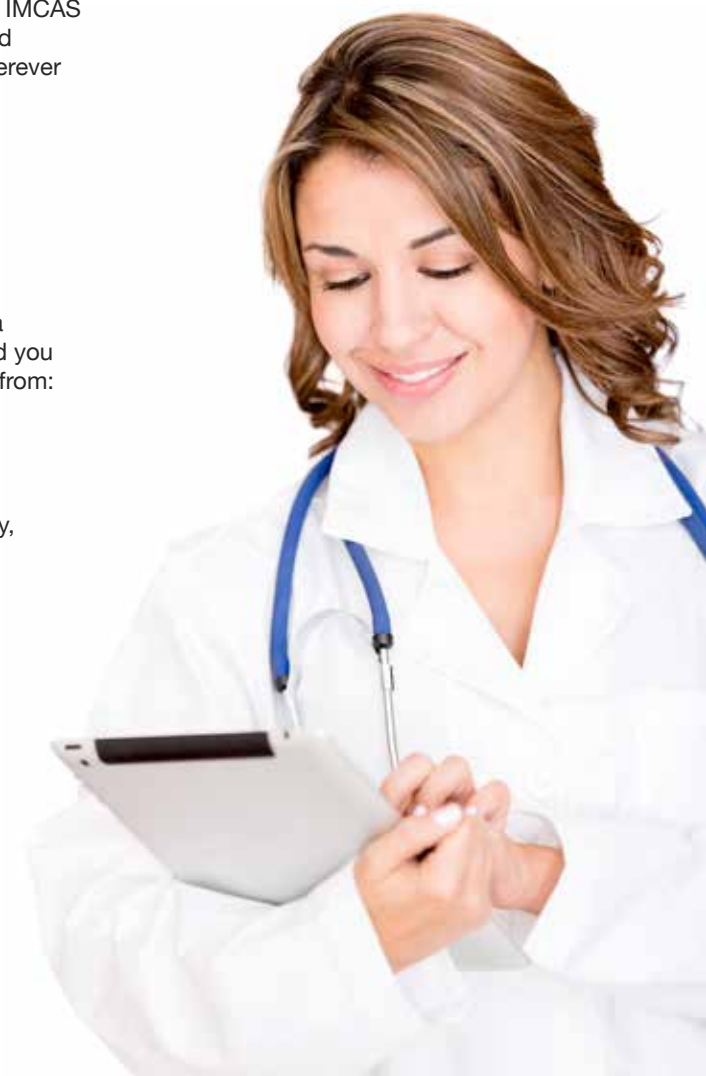

Distance should not get in the way of fruitful professional relationships - with IMCAS Community you can connect with colleagues and peers around the world and develop your professional network and standing on an international level wherever you are on the globe.

EXCLUSIVE OFFER!

All IMCAS CHINA 2015 attendees can enroll for IMCAS Academy and have a special access to this congress' recorded sessions for the entire year. Should you decide to become a full-access member of IMCAS Academ, you will benefit from:

- Exclusive full length videos of sessions and symposia uploaded regularly throughout the year
- Scientific articles
- Online versions of prestigious scientific journals dedicated to plastic surgery, cosmetic dermatology and aesthetic medicine
- Plus lots more features to be added during the year

**SIGN UP TODAY AT
IMCAS.COM**

DR RAJ ACQUILLA

MD, UNITED KINGDOM

Key speaker in the injectables sessions

What are the latest trends in injectables?

The current and future trends of facial injectables are driven by the latest advancements in HA filler technology. At present the best products give us the ability to allow rapid tissue integration through low viscosity and lifting capacity through high cohesivity. This generates soft and elegant pan-facial results which are exceptional at rest and during facial animation. This unique characteristic of treating resting and dynamic indications may result in a reduction of the use of facial Botulinum toxin in the future.

What are you most looking forward to at IMCAS China?

This will be my first visit to Shanghai and I am very excited to see China's largest and most vibrant city. The medical aesthetic market is growing incredibly fast in Asia Pacific with China leading the way in new and innovative ideas. The Chinese aesthetic ideal is adapting from pan-facial Westernisation back towards cultivating the inert beauty of the East Asian face. My heart and expertise lies in the subtle and artistic optimisation of individual beauty which fits perfectly with the approach in China, which I will be delighted to share with delegates at the congress.

In what ways does a congress such as IMCAS China help to support and develop understanding and knowledge in the field of aesthetic medicine?

The world leaders in cosmetic medicine will share their latest knowledge and expertise in Shanghai this April and it will be an honour to join them in delivering cutting edge approaches and techniques in our speciality. This will be a great opportunity for colleagues from China and beyond to participate in this unique experience and hopefully help to improve and grow their clinical knowledge, skills and practice.

INTERVIEWS

JASON KOO

Marketing Executive at Phytoceuticals Asia LTD, HONG KONG SAR CHINA

Are there any noticeable differences between the Chinese medical aesthetic market and the medical aesthetic market in the rest of the world?

The Chinese medical aesthetic market has been establishing itself for more than 20 years. According to the World Health Organization, the National Bureau of Statistics and the EIU data calculations, total health care spending in China ranked third in the world in 2012. The research firm predicted that demand for medical aesthetics in China will increase from 5.5 million cases in 2014 to 10.2 million cases in 2018 and the related income of \$5.406 billion last year will expect to increase to \$9.08 billion in 2018. Unlike in other countries, with a large population base and a huge impact on the growth of the Chinese economy, the medical aesthetic market is blooming and offering great opportunities.

What are the current trends in medical practices and regulations in this region and how do you feel that they will evolve in the future?

The demand for dermatology devices in medical practices is expected to grow due to the increase in awareness among the population regarding aesthetic procedures such as laser, Radiofrequency, and LED light therapy, etc. which provide solutions to a number of skin disorders and maintain skin health. Meanwhile, this market is managed by the government hospital and health department with very strict regulations in order to ensure the safety and quality of services in this sector.

In your opinion, what can be done to combat the fake market in China?

Companies need to have an inventory control system which shows the identification of each product and they also need to cooperate with the legal departments and education in order to combat the fake market in China.

How is the cosmeceutical market developing in this region?

The cosmeceutical market is expanding marketing networks across the tier two and three cities and urban environments with increasing demand. Meanwhile, consumers are seeking more effective products and treatments with stronger scientific background, no animal testing and no side effects that can be combined with medical procedures.

DR SONG WEIMIN

Dermatologist, CHINA

Key speaker in the one-day practice management, medspa and fake market course

What are the most important marketing tools for aesthetic practitioners?

We have been using WeChat and Microblog to promote marketing as these medias can help us to spread information.

What impact is digital communication having on the Chinese medical aesthetic practice of today?

We believe that digital communication has a good impact on Chinese medical aesthetics. But in China, there is some fake information, so people do not always trust digital medias.

To keep a private medical practice successful, what are some effective ways to attract and retain loyal patients?

We are cooperating with other companies in areas like banks and oral cavity.

Do you think that social media can help physicians to promote their medical practice and market services to patients?

I think that social media does help to promote medical practices, but that it has little effect on them, maybe at a ratio of 10%.

HEE YOUNG LIA KIM

CEO at Newpong, SOUTH KOREA

What makes the Chinese aesthetic market different to the aesthetic market in other countries?

The Chinese market seems to combine both the medical market and the spa market.

What are the current trends in medical practices and regulations in this region and how do you feel that they will evolve in the future?

I think Chinese regulations (SFDA) for aesthetic devices is becoming strict for items from both China and overseas. Other countries' regulations are also very similar in my opinion. Compared with couple of years ago, aesthetic medicine has greatly diversified from just blepharoplasty to rhinoplasty, injectables, liposuction and so on. It is likely to evolve a lot in the future.

How is the laser and energy based device market developing in this region?

As other trendy countries have increased the demand for energy based devices, the Chinese market will also follow. This is because energy based devices are usually developed for non-invasive treatments with no down time.

IMCAS

International Master Course on Aging Skin

NOVEMBER 2015

The Concept of Dermaceutical & Surgiceutical Non-Invasive Technology No Surgery · No Injection

REIZ®
Revolution of Skin Renewal
PROFESSIONAL

REIZ® ReSurfacing Solution – the latest innovative and non-invasive technology for professional use only

With one drop of REIZ® ReSurfacing Solution, it can help:

- To improve cells rejuvenation, appearance of deep wrinkles and fine lines.
- To stimulate dermis to generate the amount of collagen in order to increase firmness of epidermis.
- To increase cells metabolism and hemoglobin to promote cells revitalisation and anit-oxidant effects.
- To reduce pigmentation, correct yellowish, dull and uneven skin tones in order to achieve ageless-translucent skin.

MADE IN KOREA
