

INTERNATIONAL MASTER COURSE ON AGING SCIENCE

# IMMAS

20<sup>TH</sup> ANNUAL  
WORLD CONGRESS

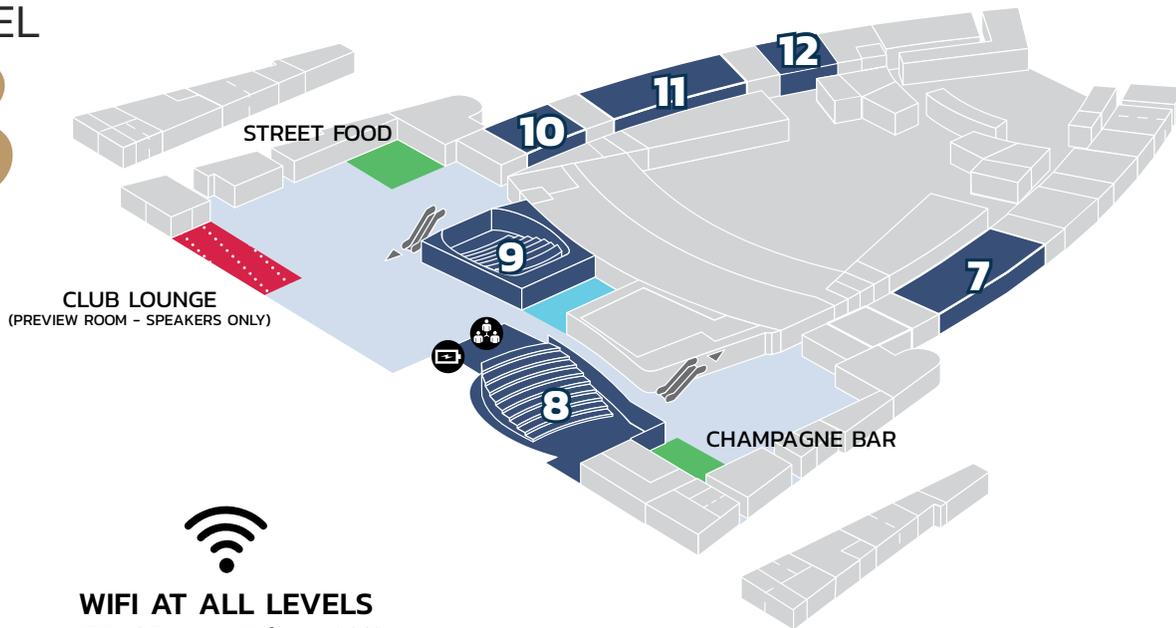

FEBRUARY 1 TO 3  
2018 • PARIS

A young woman with long brown hair, wearing a white leotard, is posing in a dynamic, athletic stance. She is holding a large, gold, 3D-style number '20' that is integrated with her body. The number '2' is positioned behind her right leg, and the '0' is in front of her left leg. She is smiling and looking upwards, with her right hand on her head and her left leg kicked back. The background is a plain, light-colored wall.

# Welcome

Dear Colleagues,

We are delighted to welcome you to this landmark event, as IMCAS celebrates its 20th anniversary of excellence in dermatology, plastic surgery and aesthetic science.

We have come a long way since we began in Paris 20 years ago. What once was a small group of physicians sharing their ideas is now an international multi-specialty congress.

We have expanded into all corners of the globe, holding congresses in China, Thailand, Indonesia, Hong Kong, Singapore, Taipei, India and Mexico. In 2018 we are travelling again, this time going to the new locations of Seoul in South Korea, and Cartagena de Indias in Colombia. Of course, we are always happy to return to our home in Paris each year for our key event, the Annual World Congress.

Like all of our congresses, it is our priority to have the most ample and diverse leaders to come and present various perspectives from their leading fields and region. At this year's Annual World Congress, we are having over 670 expert speakers from around the globe representing over 50 countries worldwide, ready to offer you a world-class learning experience you will never forget.

For our 20th anniversary, the Annual World Congress will be bigger and more extensive than ever. Sessions will take place in 12 rooms over the next three days, for a total of 270 learning hours focusing on 15 key themes in 12 learning tracks.

This program will help you navigate the different learning tracks, from fillers and botulinum toxins and clinical dermatology, to breast and body surgery and lasers, EBD and body shaping and genital treatments. Inside the economic chapters, beside the one day dedicated to practice management and the Tribune session, the new IMCAS Aesthetics Innovation Forum will show you the very promising start-ups of our profession. Follow the tracks and select the sessions that really appeal to you.

We would like to warmly thank as well all the Academic Dermatology and Plastic Surgery Associations from Europe, MENA, Eastern Europe, and China who are our partners and who are each supervising a one hour scientific session within the program.

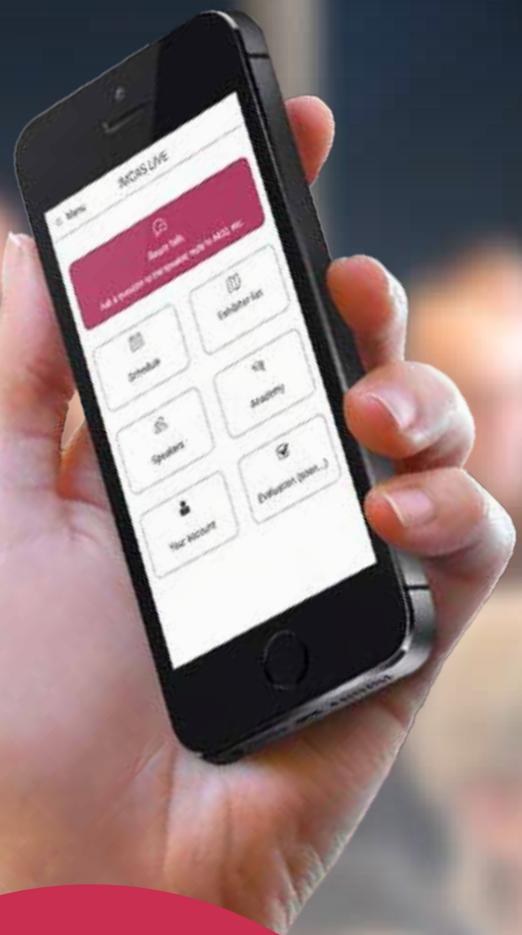

Of course, with all the learning opportunities on offer, the choice can be overwhelming. However the IMCAS Academy, our academic and social e-learning platform makes it easy, allowing you to watch presentations you may have missed. There are already almost 2,000 presentations online and more added with each congress.

Once again, we thank you for joining us to celebrate two decades of being at the leading edge of international innovation and science.

# Dedicated to quality

## CME

IMCAS offers its participants Continuing Medical Education credits (CME), which every practitioner requires in order to demonstrate his or her quality, and to keep himself or herself up to date on new medical developments.

IMCAS, being an international event, is commonly accredited at several levels according to the location. In recent years IMCAS congresses have been consistently accredited in Europe, USA, China, Indonesia, Hong Kong and India, among other locations.

The number of CME credits that IMCAS offers its participants varies according to the duration of the congress and the accreditation organization, given that the requirements differ from one country to another.

Continuing Medical Education and corresponding accreditations are a trademark of quality in educational activities. Thus, bringing educational content of the highest quality is a priority at IMCAS.

IMCAS Annual World Congress 2018 is under process of accreditation/ registration by the following institutions:

France	Europe	Europe	USA
Through the <b>Agency of Continuing Professional Development</b> (Agence de DPC)	Through the <b>European Accreditation Council for Continuing Medical Education</b> (EACCME)	Through <b>Ethical Medtech</b>	Through the <b>Accreditation Council for Continuing Medical Education</b> (ACCME)
	The Medtech Europe Code of Ethical Business Practice sets strict, clear and transparent rules for the industry's relationship with Healthcare Professionals (HCPs) and Healthcare Organisations (HCOs), including arrangements with consultants, research and financial support to medical education.		
	8 CME credits, Event code: LEE17-00914 (Injection Cadaver Workshop)		8 CME credits, Event code: 00914 (Injection Cadaver Workshop)
	24 CME credits, Event code: LEE17-00913 (Full conference)		24 CME credits, Event code: 00913 (Full conference)
			

### How to obtain your Certificate of Attendance and claim your CME credits?

At the end of the conference, each registered delegate has to fill in the online evaluation form in the 30 days following the congress at:

[www.imcas.com](http://www.imcas.com)

A Certificate of Attendance will then be available for download on the delegate's account along with a full explanation of how to claim the CME credits.

The post-congress evaluations completed by attendees are invaluable in enabling us to continuously improve our congresses year after year, and to ensure we offer delegates a scientific program that matches their needs and expectations.

At IMCAS Annual World Congress 2017, the online delegate evaluation conducted on a total of 1467 delegates revealed the following:

**99%** of participants rated the scientific topics as good to excellent

**97%** of participants rated the scientific speakers as good to excellent

**97%** of participants would attend a future IMCAS congress

but also **9%** of participants found that some of the scientific presentations were industry oriented

# and transparency

How does IMCAS ensure the highest quality at its congresses?

## COI Policy

### What is a conflict of interest? (COI)

A COI is a situation in which a person who has a sufficient personal and/or financial relationship with a commercial or non-commercial entity that may bias the content of his or her presentation. The appropriate and most open course of action is to disclose activities and relationships that, if known to others, might be viewed as a conflict of interest, even if speakers do not believe that any conflict or bias exists.

### How does IMCAS acknowledge COI?

IMCAS insists on complete independence between instructional (or scientific) courses and the industry sponsors of its congresses.

Scientific lectures are presumed to be based on objective interpretations of evidence and unbiased interpretations of facts with a fair representation of all specialties concerned in the field of aesthetics. This includes both medical aesthetics, such as plastic surgery and dermatology, and non-medical aesthetics, such as the cosmeceutical field.

The integrity of our congress requires disclosure of any potentially distorting influences. The audience may then judge and, if necessary, make allowance for the impact of the bias on the information they receive.

### Who does the COI policy apply to?

Anyone who is a speaker during the conference or contributes to the development of the scientific program, including:

- All Members of the Scientific Board (Course Director, Course Coordinators, Scientific Secretaries, Members of the Scientific Committee)
- All Faculty Members

Disclosure must be made whether the speaker has or

does not have a COI within his or her lecture content. This disclosure form will be automatically displayed before the presentation slides of the speaker.

Furthermore, in order to comply with international accreditation criteria, each member of the Scientific Board has to fulfill additional COI requirements and must provide a written declaration of potential or actual COI for the IMCAS congress they are participating in.

COI disclosures are available in the online program on the IMCAS website

### What if the speaker declares "no Conflict of Interest"?

Neither the speaker nor any member of his or her immediate family has a significant financial arrangement or affiliation with the product, device or company involved in the congress, or any potential bias against or towards another product, device or company.

The form is titled "Scientific Board Conflict of Interest (COI) Disclosure" and includes the IMCAS logo. It contains the following sections:

- Introduction:** "To maintain scientific transparency and the high quality standards of IMCAS congresses, and to comply with international accreditation criteria, all members of the Scientific Board must provide a written declaration of potential or actual Conflict(s) of Interest (COI) for the IMCAS congress they are participating in. All COI disclosures are available on the IMCAS website, under the concerned conference."
- Event Information:** Fields for "EVENT NAME", "YOUR FULL NAME", and "EVENT DATE" (YEAR, MONTH).
- Conflict of Interest (COI) Disclosure (tick appropriate):**
  - I have no potential conflict of interest to report
  - I have the following potential conflict(s) of interest to report:
- Table:** A table with 6 rows and 5 columns for reporting conflicts.
 

Name of commercial entity/organization	Receipt of grants/research support	Receipt of honoraria or consultation fees	Participation in a company-sponsored speaker's bureau	Stock shareholder	Spouse/partner	Other support (specify)

# FAQ

Here are a few frequently asked questions. If there is anything you can't find the answer to below, look out for the IMCAS staff or head to the main information desk on level 2

## Is there WiFi in the venue?

WiFi is free throughout the venue using the network 'IMCAS2018' and the password 'IMCAS2018'. While you're online, don't forget to connect with us and share your experience of social media, using #IMCAS!

**Facebook:** imcascongress

**Instagram:** @imcascongress

**Twitter:** @imcascongress

## Where can I leave my coat?

The cloakroom is located on level 2 in the corridor outside room 1. You can leave coats and bags at a cost of €2 per item.

## Where can I get something to eat and drink?

Complimentary lunch and beverages are available for Delegate and Faculty badge holders in the signposted food courts. Check out the [Schedule-at-a-Glance](#) for details of the times.

Fancy something a bit different? Each of the three food courts is serving something special. Head to the Veggie Bar on level 2 for fresh juice, brought to you by Aptos LLC and Cocoon Medical.

On level 3 the Street Food area serves snacks and sodas and you can pick up a glass of Champagne at the Champagne Bar.

Water fountains are located throughout the venue. This service is brought to you by our exhibiting company Jeisys Medical Inc.

## Are there lounge areas?

Two lounges throughout the venue provide you with an area to meet or share lunch with colleagues.

## What is Le Café Parisien?

Available exclusively for delegates who have registered for Member Plus Package.

Want to take a short break and recharge between sessions? Drop into the Café Parisien and find a little oasis of calm amidst the hustle and bustle of the congress! Non-stop catering, a comfy lounge area and some space to catch-up with colleagues and friends await you here.

## Where can I charge my phone?

If your phone is running low, there are charging stations located on level 2 and level 3. This service is brought to you by Caregen Co Ltd and Jeisys Medical Inc.

## How can I sign up for optional courses and extras?

There is a range of additional options available for your education and comfort. Check out [page 17](#) for information about the different upgrades available.

## Where is the Selfie Corner?

Join the trend! Take a selfie in our dedicated booth at the main information desk. This experience is brought to you thanks to our exhibiting company Sinclair.

## Where is the Speakers' Club Lounge and Preview Room?

The Speakers' Club Lounge and Preview Room is located on level 3. It is brought to you thanks to our exhibiting company HydraFacial MD-Edge Systems.

*See page 2 for the map of the venue.*

All sessions are equipped with computer projection. In order to ensure a successful congress, speakers are required to have their presentations delivered to the Preview Room the day before or at least two hours prior to the start of the session. No direct in-room plug in will be allowed.

## Where are the Video Papers?

These filmed presentations take place on level 2 of the Courtyard on each day of the congress. Speakers will present fascinating lectures on all subjects relating to dermatology, plastic surgery and practice management.

*See page 113 for the full program.*

## Where are the Scientific Posters?

Posters are displayed in the corridor facing rooms 5 and 6 on level 2 and are accessible to attendees at any time for the duration of the congress. The poster session is held on Friday at 1 PM allowing contributors to present their work and attendees to meet the authors.

*See page 118 for the full program.*

## Where can I find the Journal Corner?

The purpose of the Journal Corner near the main information desk on level 2 is to provide delegates with free access to scientific journals edited by medical societies. Each journal partner has been chosen for its scientific quality.

*See page 239 for details.*

## What is the IMCAS Daily Journal?

The IMCAS Daily Journal is a mini-newspaper distributed every morning during the congress. Printed overnight with the latest news, each edition is packed with fascinating articles as well as tweets and photos from the preceding day. Be sure to pick up your copy every morning!

## How can I get my Certificate of Attendance?

At the end of the conference, each registered delegate has to fill in the evaluation form online at [www.imcas.com](http://www.imcas.com), to obtain the Certificate of Attendance. Once the evaluation is completed, the Certificate of Attendance will be available for download.

*See page 12 for more general information.*

## How can I watch the lectures I liked or missed at home?

All the presentations of this congress are recorded and will be published online on IMCAS Academy. With an exceptional library of almost 2,000 videos as of today, IMCAS Academy is already the most complete online tool for your learning at anytime, from anywhere.

Head to the IMCAS Academy Booth at the main info desk on level 2 and join the largest worldwide medical community in plastic surgery, dermatology and aesthetic science (already 12,500 members!).

## Target Courses

**€ 70 (each additional course € 50)**

A one-hour in-depth course on a single topic, led by a maximum of one or two experts. A great opportunity for a peer-to-peer exchange on a controversial or hot subject.

*We recommend that you choose a maximum of four Target Courses in order to enjoy the whole congress. See pages 62, 85 and 110 for the list of Target Courses you can choose from and check the Schedule-at-a-Glance for timings, but be careful as seats are limited!*

## Video Classes

**€ 150 (each additional class € 100)**

A two-hour video course on a single topic, led by a team of experts. No theory here, just applied techniques on various topics.

*We recommend choosing a maximum of three Video Classes. See pages 46, 80, 99, 105 and 109 for a list of Video Classes you can choose from and check the Schedule-at-a-Glance for timings. Sign up early to avoid missing out!*

## Member plus package

**€ 70**

With this option you get unlimited access to the Café Parisien – A dedicated VIP space located at the heart of the congress. In this comfortable lounge area of Café Parisien you can take advantage of complimentary hot and cold beverages, sweet and salty snacks, daily international newspapers and WiFi. A personal concierge service is also available at all times.

## IMCAS Academy 12-month subscription

## THE INNOVATIVE TALK SHOW

Discover today's and tomorrow's medical world with inspiring and powerful medical talks!

### Thursday BEYOND

1 PM  
ROOM 1

**Welcome to the future: celebrating excellence, 20 years later, 20 years younger**

Join the IMCAS Scientific Board to celebrate the 20 years of IMCAS and the milestones that led to this landmark anniversary event. IMCAS is now the key date in the plastic surgery, dermatology and aesthetic science calendar, and looked at as a leader in its field.

However, the Scientific Board is always striving to expand, improve and advance. This session will look towards tomorrow and give an insight into the many developments and surprises to come in this field.

IMCAS SCIENTIFIC BOARD

### Friday BEYOND

1:30 PM  
ROOM 8

**Body dysmorphic disorder: what plastic surgeons and dermatologists need to know**

Body dysmorphic disorder (BDD) is a common yet under recognized and distressing disorder, which sees many of its sufferers seek cosmetic treatment. Dr Katharine Phillips is internationally known for her expertise in BDD, spending 25 years researching it.

Dr Phillips will provide an overview of BDD's key clinical features and effective psychiatric treatments. Surgeons and dermatologists will leave this session with approaches to take in the assessment and referral of future patients.

**PHILLIPS Katharine**  
MD  
United States

### Saturday BEYOND

1:30 PM  
ROOM 8

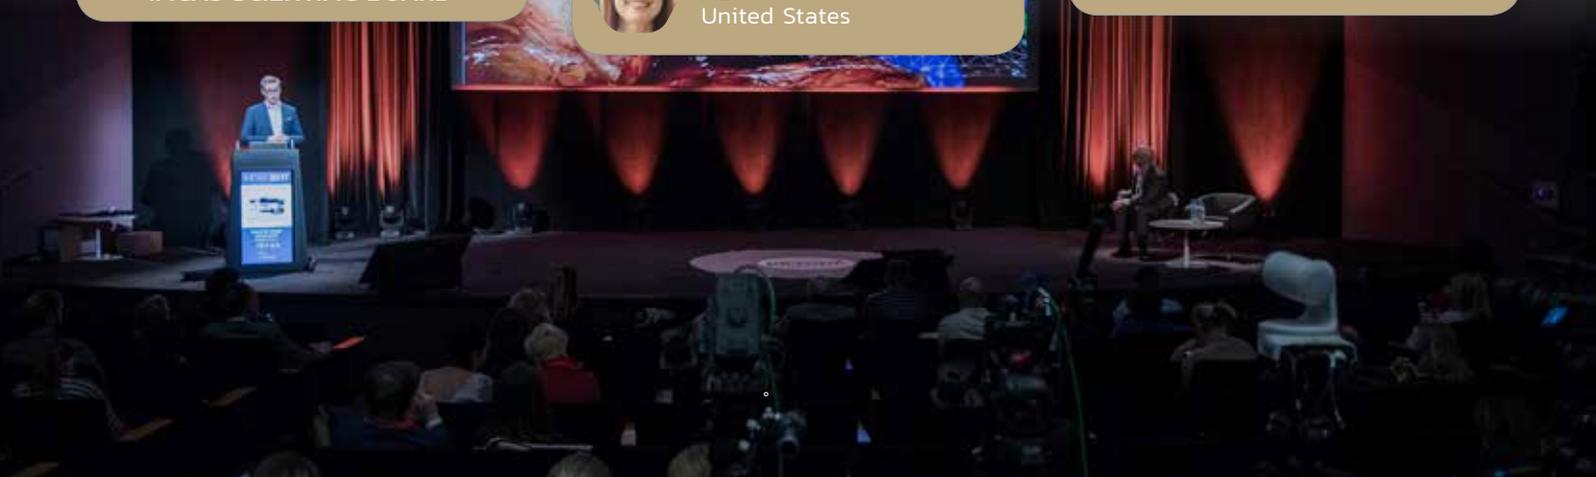

**The future of medical training**

We are facing a technological revolution that will impact medical practice and education in the near future. In this session, Dr Alberto O Rancati will explore how this technological expansion can help to tackle the problem of medical error and preventable deaths.

Join this session to discover how medical training in the future will adapt to meet this need, including a move towards Artificial Intelligence, robotic technology and simulation programs. Are we ready for this change?

**A**natomical review is crucial when planning aesthetic treatments and ensuring that patients receive the best outcomes. For a comprehensive full day analysis, do not miss out on the Anatomy on Cadaver Workshop, unquestionably one of the highlights of every IMCAS congress.

Broadcast live from the "Fer à Moulin", Surgery School of Paris, our experts will demonstrate the latest aesthetics techniques on the relevant face and body parts (fat for buttocks and breast treatments, injectables and threads for the face, vulvovaginal and penile injections, submental fat treatments), while offering tips and tricks with an anatomical reference to get the best results for your patients. Each session is composed of a live dissector, a live injector and will end with a comment by an expert on the topic and questions from the audience.

This year, there will be an additional live transmission during the three morning hours between Paris, France and Seoul, South Korea. Attendees in Seoul will watch the dissection and demonstrations live, and experts from both sides of the globe will weigh in on the discussion and debate. The Anatomy on Cadaver Workshop explores a number of important themes, including threads, vulvovaginal rejuvenation, injectables and fat injections.

How to ensure that you apply the best technique for a specific zone? How to avoid dangers zones while injecting? This is your chance to review your anatomical references and gain a visual understanding.

# COSMECEUTICALS module

*on Friday*

Sessions 129 to 136 – ROOM 5

**T**he popular module is back for its 4th edition at IMCAS Annual World Congress 2018.

Anywhere in the world, skin and hair pigmentation disorders are among the top three unmet needs reported by doctors. This year, we are focusing in particular on skin and hair pigmentation (where genes and environment meet). Experts, such as scientific researchers and practitioners will discuss the latest research in this field, and how it is being developed into treatments. In order to push the controversy at a maximum, industry representatives will also bring their views.

From basic science to applied research and “how to treat with cosmeceuticals” sessions we are offering you a deep dive in pigmentary disorders.

You’ll also have the chance to see the treatments in actions during the patient demonstration module where experts will explain how to use cosmeceuticals post-treatment and what their benefits are.

Finally, during the last hour of the module, a round table discussion of what we can expect in the cosmeceutical field over the next five years will take place. This is your opportunity to ask the experts any burning questions you may have.

As the field grows, there has been much debate about whether these products are effective and what their place is in cosmetic dermatology and plastic surgery. Join this module to analyze cosmeceuticals and their role in the treatment of hair and skin health for yourself.

Gynecologist  
France

**MOLE Bernard**  
Plastic surgeon  
France

The famed genital treatment module returns at IMCAS Annual World Congress 2018. Spread over all days of the congress, this module has been designed in collaboration with a number of learned aesthetic gynecological and genital restoration societies.

The genital treatment module will explore a range of treatments and techniques for genital restoration, from non-invasive to surgical treatments.

There will be the opportunity to explore both male and female anatomy in depth during the Anatomy on Cadaver - vulvovaginal and male genital session, as well as sessions dedicated to male impotency and penoplasty.

Finally, the module will tackle a number of challenging subjects for this sensitive area, including menopause, surgery and complications.

This module will appeal to not only gynecologists but to anyone interested in aesthetics.

# IMCAS AESTHETICS INNOVATION FORUM

## *fostering innovation and entrepreneurs*

**FROM 12 TO 4 PM – FRIDAY, ROOM 9**

IN COLLABORATION WITH

Everyday innovators are looking for opportunities to bring exciting new products and devices to market, as venture capitalists and CEOs are looking to invest in cutting-edge innovations.

For the first time, IMCAS, in collaboration with the Dermatology Summit and the Masters of Aesthetics, is hosting the Aesthetics Innovation Forum to gather key international players in one room. Throughout the three-hour program we will build a community of individuals and organizations in aesthetic science who are excited about developing ideas into products that can substantially improve skin health and appearance.

The forum provides a unique networking venue for attendees to communicate with, learn from and collaborate with leaders who have brought game-changing products from concept to market.

It also aims to educate participants about inspiring innovations that can provide the basis for a generation of mutually beneficial relationships.

The first IMCAS Shark Tank will give up-and-coming start-ups the chance to showcase their innovations of tomorrow. We received close to 30 fantastic submissions to be part of this event, and with great difficulty, chose 9 start-ups to present. A jury of 10 venture capitalists, industry leaders, physicians and inventors will have the difficult task of choosing three winners, including one that will be crowned 'IMCAS Innovation of the Year'!

Come to this forum to discover the next big thing, and learn how to become a successful innovator!

# IMCAS ECONOMIC WORLD TRIBUNE

## *interact with the top CEOs*

FROM 4:30 TO 6:30 PM – FRIDAY, ROOM 9

The aesthetic medical market moves quickly. Mergers, acquisitions, and new trends – the aesthetics landscape is constantly changing. Through the IMCAS World Tribune you can get up-to-the-minute news about the global aesthetic market directly from key players in the industry, and an insight into future market trends.

Part 1 of the two-hour program is an in-depth market analysis, with lectures from financial analysts and medical economists. The experts will explore the trends that are shaping the aesthetic sector and driving growth, and delve into marketing strategies for this field.

In parts 2 and 3, CEOs and presidents of leading face and body treatment companies will share their strategic views and latest economic news, including mergers, acquisitions and new regulations. These round table discussions are a chance to understand the outlooks of these major aesthetic companies and examine where there is scope for market growth.

Throughout the program, you can connect to IMCAS Live to exchange directly with the industry leaders, ask questions and participate in the debates. The IMCAS World Tribune is the ideal economic update for anyone in the aesthetic field, including industry representatives, journalists and physicians.

IMCAS ACADEMY IS THE ANSWER TO ALL YOUR QUESTIONS

## How can I be in two places at once?

With IMCAS Academy you don't need to! If you are struggling to choose between two sessions at the congress, sign up for IMCAS Academy. IMCAS Academy allows you to watch any sessions you may have missed at a later date, in your own time.

## Can I watch lectures more than once?

IMCAS Academy lets you rewatch videos as many times as you like. If you are completing a course, IMCAS Academy will save your progress and let you know where to pick up again.

## How can I stay in touch with my colleagues throughout the year?

IMCAS Academy is not just an academic platform, it is also a social one. Through IMCAS Academy you can connect with others in the aesthetics field, send private messages and network.

## How can I take my learning with me?

Want to take your learning on holiday with you? Make your commute productive? IMCAS Academy is mobile friendly so you can watch videos whenever and wherever you want. There are videos on 15 different themes, including clinical dermatology, injectables, lasers and EBD and face, body and breast surgery.

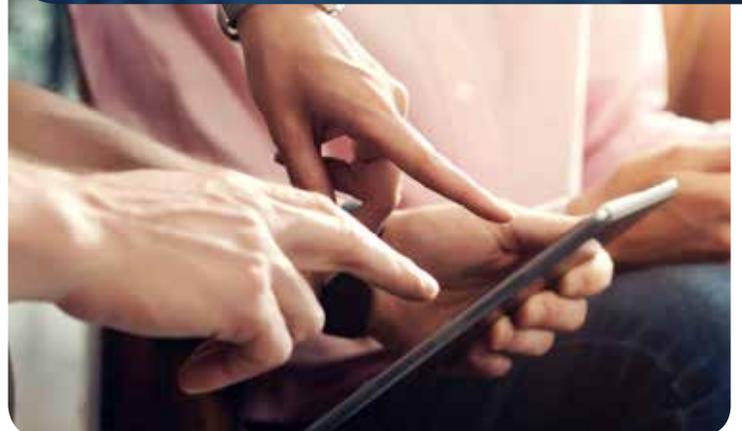

## Where can I get advice on my complicated cases?

With IMCAS Alert, brought to you by IMCAS Academy, you can quickly and anonymously receive advice from other members of the community on complications and difficult cases within 24 hours. The advice is moderated by international expert coordinators to ensure the the answers you receive are always top quality.

## Where can I read the latest findings and interviews with experts?

The IMCAS Academy blog is regularly updated with interesting scientific articles and interviews from talented members of the aesthetic field. Do you have something to say? Members can submit their own articles to the blog!

## THE ACADEMY IN NUMBERS

## YOUR 24/7 EXPERT-TO-EXPERT ADVICE

*This innovative tool allows users to anonymously present cases and quickly receive expert advice from other members of the community in three easy steps. Become part of the IMCAS Alert community, exclusively through your IMCAS Academy account.*

### **STEP 1:** Choose your topic

Select the theme that best suits your case from injectables and threads, lasers, and plastic surgery.

### **STEP 2:** Submit your case anonymously

Submit all the details relevant to your case. It will then be visible to IMCAS Academy's whole community of experts.

### **STEP 3:** Get answers from experts

Moderated by coordinators, experts from the IMCAS Academy community will offer advice and tips on your case. Make sure to update the community on what advice you followed and the outcome.

*When our beta version of Alert was released in January 2017 with a limited membership, it was an instant success. One year later more than 110 cases have been submitted, and there have been more than 1,000 individual exchanges between experts. Now the wait is over for everyone else. From January 31, 2018, Alert is open to all physicians for free.*

# Where does IMCAS get its revenue?

IMCAS derives its revenues either from industry subscriptions or from physician subscriptions. It conducts educational activities, but is also a profit-seeking business.

## HOW CAN WE RESOLVE THESE TWO INTERESTS?

Simply, by allowing our participants to distinguish clearly and at all times the activities that are sponsored from those that are not.

Thus, industry parties may support IMCAS by providing either a **SPONSORSHIP** or an **EDUCATIONAL GRANT**. Let us explain and state each one of these two supports.

MEET OUR SPONSORS

## Sponsorship

Sponsorship is the direct financial support of an activity. Sponsoring an event therefore involves a partnership between the two parties. In return for financial support of a live demonstration, a symposium or a guest lecture, the sponsoring company may present syntheses of studies or trials, practical solutions to specific patient problems and/or live demonstrations to the audience. The content of these sponsored sessions is therefore not endorsed by IMCAS.

All activities described on pages 128 to 143 are SPONSORED at IMCAS Annual World Congress 2018

## PRE-CONGRESS Courses

This year IMCAS was proud to work with Motiva and Sinclair to bring you two sponsored pre-congress courses in the days before the IMCAS Annual World Congress 2018.

### Sinclair Cadaver Workshop

Tuesday

This full-day cadaver workshop, directed by Sinclair, concentrated on injection and suture practices for the head and face using hand-on dissection. Leading authorities debated and demonstrated practical techniques for different areas, including the forehead, orbital, midface, nose and lower face, plus discussed danger zones.

### Motiva Masters of Breast and Contour Aesthetics

Wednesday

This half-day course was directed by Motiva with the participation of expert speakers from around Europe and the Americas. The course explored different breast augmentation techniques, including 3D designed breast augmentation, minimal scars and ergonomic breast augmentation, and advanced contour aesthetics.

# Educational grants

An educational grant is a financial donation with no exchange partnership at stake. Unlike sponsorship, which is characterized by a bilateral exchange implying that the receiver promotes the sponsor, the grant is an unilateral gesture. Funds are given by the donor to support a project or program. The scientific content is entirely developed and chosen by the Scientific Committee and is therefore eligible for CME Accreditation.

All sessions below benefit from EDUCATIONAL GRANTS at ICMAS Annual World Congress 2018

## TRAINING VILLAGES

### *teaching program*

The "Training room" presents a brand new format of training at IMCAS Congresses. This intimate small group setting offers the physicians a more interactive training than a traditional presentation. With the aids of hands-on practices or live/video demonstrations, physicians, corporate professionals and distributors can be trained on the usage to optimise the potential of the company's product(s)/device(s), which will ultimately benefit your clinical practice or everyday business.

Feel free to visit the company booth should you like to be informed of this special training. Upon invitation, you will be able to join this training session.

The IMCAS Scientific Board is presenting you a selection of prestigious scientific journals, chosen for their high quality scientific content. For your reading pleasure, the Journal Corner is located near the main information desk on level 2.

# Journal Corner

## Aesthetic Surgery Journal

Editor: Dr Foad Nahai, Plastic surgeon

[asj.oxfordjournals.org](http://asj.oxfordjournals.org)

Aesthetic Surgery Journal is a peer-reviewed international journal focusing on scientific developments and clinical techniques in aesthetic surgery. It is the official publication of the American Society for Aesthetic Plastic Surgery (ASAPS).

## Plastic and Reconstructive Surgery Journal

Editor: Dr Rodney James Rohrich, Plastic surgeon

[www.prsjournal.com](http://www.prsjournal.com)

Plastic and Reconstructive Surgery Journal is the official publication of the American Society of Plastic Surgeons (ASPS). For more than 70 years, PRS has been the one consistently excellent reference for every specialist who uses plastic surgery techniques or works in conjunction with a plastic surgeon.

## JAMA Facial Plastic Surgery

Editor: Dr John S Rhee, Facial plastic surgeon

[jamanetwork.com](http://jamanetwork.com)

JAMA Facial Plastic Surgery is an international peer-reviewed journal that focuses on advances in reconstructive and aesthetic procedures to improve patients' quality of life, and encourages a deeper understanding of the basic sciences related to facial development and wound healing.

## JAMA Dermatology

Editor: Dr June K Robinson, Dermatologist

[jamanetwork.com](http://jamanetwork.com)

JAMA Dermatology has been in continuous publication since 1882. The journal publishes material that helps in the development and testing of the effectiveness of diagnosis and treatment in medical and surgical dermatology, pediatric and geriatric dermatology, and oncologic and aesthetic dermatologic surgery.

## The PMFA Journal

Editor: Dr Andrew Burd, Consultant burns and plastic surgeon

[www.thepmfajournal.com](http://www.thepmfajournal.com)

Written by the profession for the profession, The PMFA Journal is a unique publication, which brings together the related fields of plastic and maxillofacial surgery and aesthetic medicine. Each issue features high quality educational articles, journal and book reviews, and news from the international conference scene.

## Dermatology Journal

Editor-in-Chief: Dr Gregor Borut Ernst Jemec, Dermatologist

[www.karger.com](http://www.karger.com)

Dermatology provides a worldwide survey of clinical and investigative dermatology. Original papers report clinical and laboratory findings. In order to inform readers of the implications of recent research, reviews prepared by invited, internationally recognized scientists are regularly featured. In addition, the journal publishes papers on novel treatments, surgical pearls, consensus guidelines and industry news.

## Skin Appendage Disorders

Editors-in-Chief: Dr Dimitris Rigopoulos and Dr Antonella Tosti, Dermatologists

[www.karger.com](http://www.karger.com)

Skin Appendage Disorders provides a wide range of original and review articles dealing with all aspects of hair, nail and skin glands. Covering all aspects of the field, Skin Appendage Disorders is of primary importance for dermatologists in clinics and research, dermatological surgeons as well as cosmetic dermatologists.

# IMCAS GALA DINNER

*Saturday from 7:30 PM  
at the Pavillon Cambon Capucines  
46 rue Cambon, Paris*

The 20th anniversary IMCAS Gala Dinner is set to be a night to remember, taking place on Saturday 3rd February 2018.

This year we look forward to welcoming you at the beautiful Pavillon Cambon, located in the opulent and historic first arrondissement of Paris, just a few steps from the Opera Garnier and the Louvre.

## *And the fun doesn't stop after dinner!*

Join us for the official **AFTER PARTY** at 10:30 PM. Dust off your dancing shoes and get ready to conga. An open-bar, live music and lots of surprises are waiting for you!

## *“More than just a great night out”*

The IMCAS Gala Dinner is not just an evening of fine dining and entertainment; it is also a chance to support a worthy cause. Each year a percentage of the ticket sales goes to support a charity. Last year, IMCAS was delighted to contribute to two wonderful organizations, *Mon réseau cancer du sein* and the *Association pour le Développement de Chirurgie Plastique* (ADCP).

ADCP is dedicated to developing knowledge in the field of plastic, reconstructive and aesthetic surgery, and educating professionals and patients. The organization does this by carrying out applied, clinical and therapeutic research, and producing training programs and material.

IMCAS was honored to welcome the President of ADCP, Nicolas Leymarie, and Dr Benjamin Sarfati to accept the donation for this great cause.

*Mon réseau cancer du sein* is a social network, supported by the patients group Patients en réseau, designed to encourage breast cancer sufferers to share their experiences with others, and connect them with professionals, associations and providers who can help them. It was a pleasure to welcome the President of *Patients en Réseau*, Laure Guéroult-Accolas, at the dinner to receive the donation.

• Gala Dinner – 7:30 PM  
€ 220

• After Party – 10:30 PM  
€ 90

# IBSA SYMPOSIUM

## LIVE DEMONSTRATIONS

*Friday, February 2, 2018*

Room 11 – Level 3 16:30 – 18:30

### **RESTORE AND CORRECT: A MULTIDIMENSIONAL PARADIGM FOR COMBINED TREATMENTS** **Key Science, Emerging Anatomy and Innovative Techniques for Dynamic Remodeling**

*Knowledge is power.* The best symposia rise above promotion of companies and their products, and empower us to advance our aesthetic concepts and techniques. With this in mind, it is my pleasure to invite you to a symposium that will transform the way we think about injectable hyaluronic acid and its role in combined treatments.

Our understanding of aging is evolving rapidly. The key to successful rejuvenation of any structure is to define and analyze some essential balances.

The first balance is between tissue restoration and ablation. Volume loss, a cardinal feature of aging throughout face and body, affects all tissue levels from bone through subcutis to the dermis and epidermis. Although the logical solution is to replace what has been lost, there is often more focus on ablation of tissue or of muscular activity with surgery, lipolysis, lasers or toxin. An appropriate balance of ablation versus restoration requires precise anatomical understanding, and the appropriate aesthetic tools even in challenging areas.

A second important balance is between tissue lifting and tissue support. This requires three-dimensional thinking, an appreciation of how fillers can be scientifically designed to confer specific clinical behaviours, and integration of science with anatomy at different tissue levels.

This symposium presents a series of unique protocols to address these and other critical balances and accomplish multilevel, dynamic tissue remodeling in patients of diverse ages and ageing patterns. Three live injection demonstrations by Drs. Daniel Cassuto, Giovanni Salti and Antonello Tateo, plus high-resolution video, will illustrate how to achieve three-dimensional restoration of the forehead, temples, midface, jawline and neck with state-of-the-art injectables and devices. We will also have the fourth dimension of time, as we elucidate the structured treatment plans of our live demonstration patients, which commenced several months prior to the symposium.

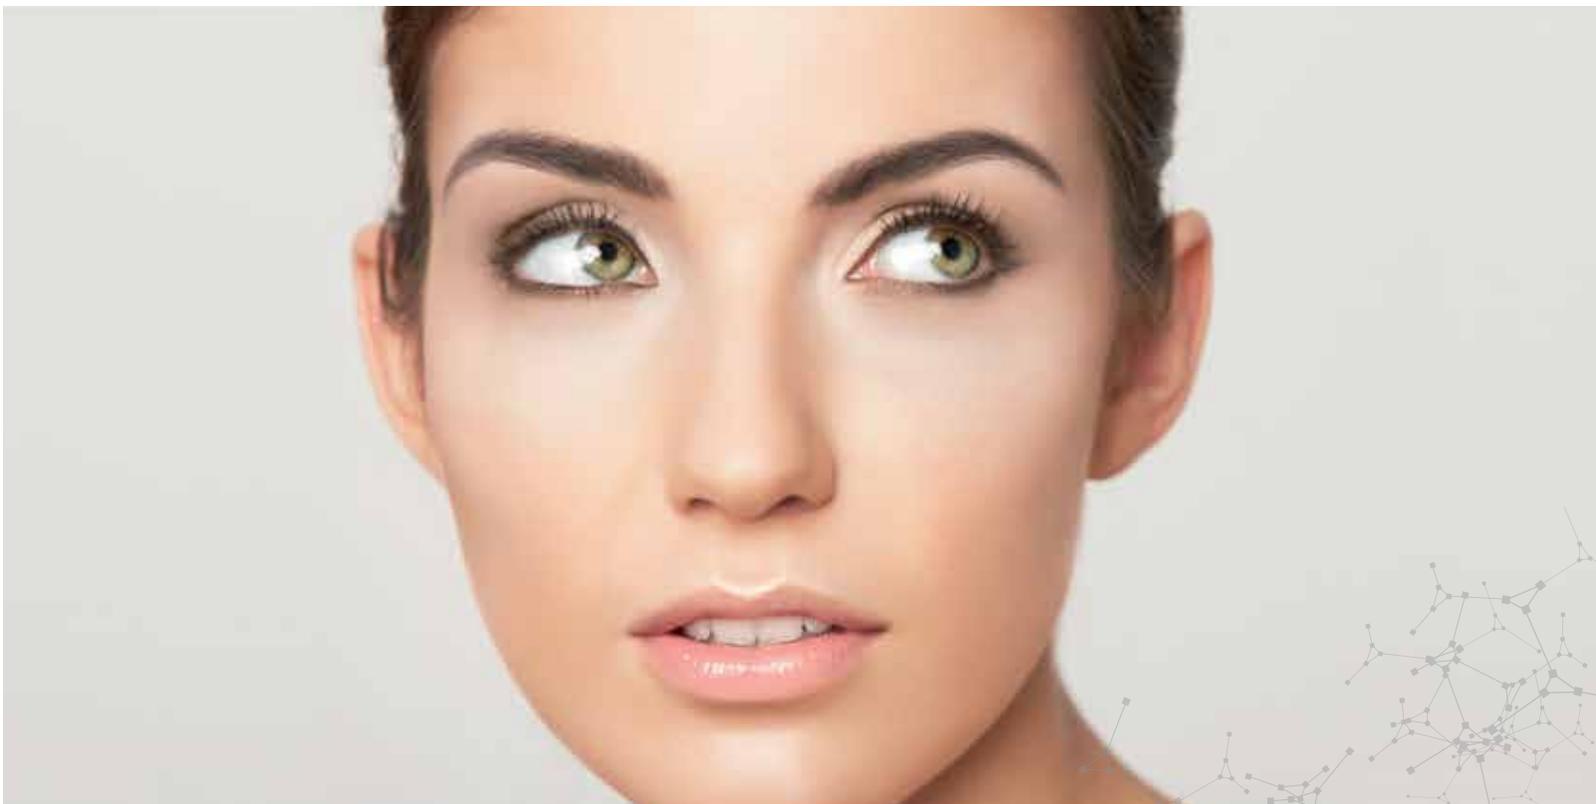

Combined treatments make sense because aging is multifactorial. To select the right combinations, we need fillers that go beyond filling to offer true biostimulation - and an evolution in how we integrate them with neuromodulators, lasers and other aesthetic tools. While knowledge is power, the most powerful knowledge lies in practical solutions that harness anatomy, science and clinical innovation to achieve the best and safest results for our patients.
