Bring your questions to the experts
& manipulate the latest ultrasonographic devices

One immersive full day

INJECT by IMCAS is a full-day immersive pre-congress course dedicated to live injectable demonstrations and practical ultrasonography, bringing together international experts in a unique format that merges real-time injection demonstrations with ultrasound-guided techniques and hands-on training.

AT A GLANCE

Live Stage

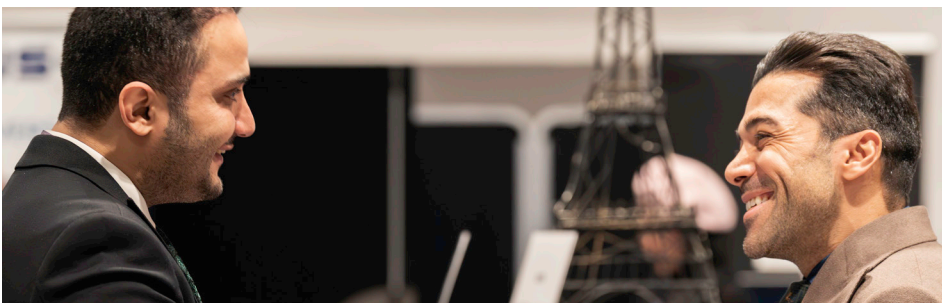

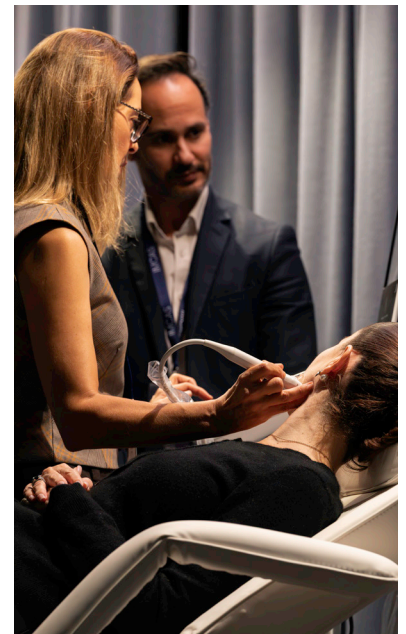

Full-day live injection demonstrations with real-time ultrasound verification. Each demo covers a specific facial zone or indication, performed by an international expert injector using products from a sponsoring company. Ultrasound check follows each injection sequence.

Hands-on Workshops

Four 90-minute ultrasound hands-on rotation sessions throughout the day. Participants rotate through standardized probe positions with structured protocols.

Scan & Consult Hub

An open consultation hub running 11:00-16:30 by different experts. Bring your clinical questions, handle the latest ultrasound devices at your own pace and get advice, and consult with on-site experts throughout the day.

AND AFTER...

Replay Access

All Room 1 sessions are recorded and made available to registered participants for 3 weeks following the event.
