KEY LEARNING

Surgeons, rejoice! IMCAS is proud to introduce IMCAS Surgery, a brand new module that will revolutionize the standards of surgical training. Led by world-renowned experts and endorsed by a number of European and international scientific societies, IMCAS Surgery aims to provide practical courses to improve the depth and breadth of your surgical skills.

For a stimulating and invigorating learning experience, the sessions of the first day will be presented in a BATTLE format, a duel wherein which two speakers with opposing stances on a surgical procedure "fight" to defend or advocate their methodology.

The second day workshop, the LIVE Aesthetic Surgery Workshop, will feature cutting-edge training tools for the ultimate hands-on surgical experience.

Last but not least, a half-day module dedicated to residents will welcome the new generation of young surgeons with in-depth practical courses.
